HOUSE

KEY TO MAPS

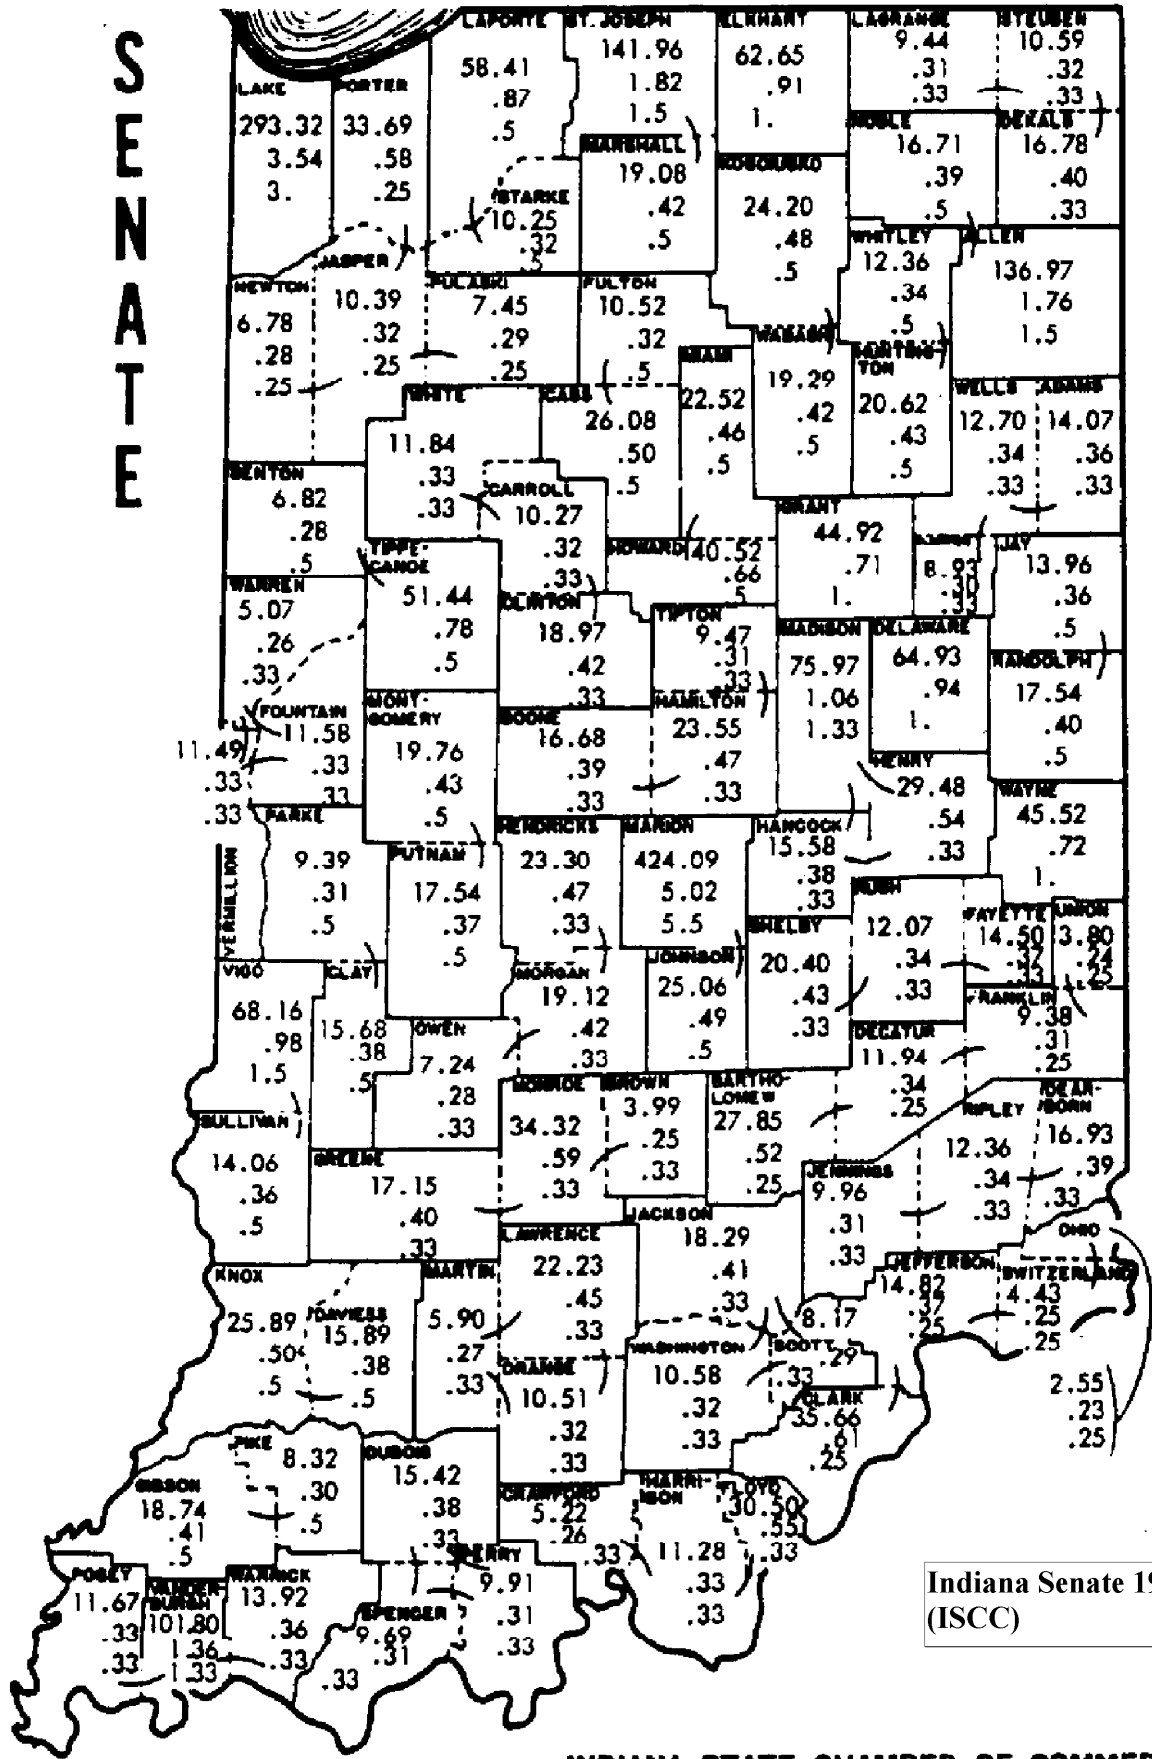

HOW EACH COUNTY stands with respect to:

TOP FIGURE—Population of voting age, in thousands, according to 1960 Census.

MIDDLE FIGURE — Number of seats to which county would be entitled, mathematically, on the basis of current authorized total membership of 100 in House of Representatives; and number of Senate seats to which county would be entitled under proposed constitutional amendment allotting each county one-fifth of a seat, then remaining seats on population.

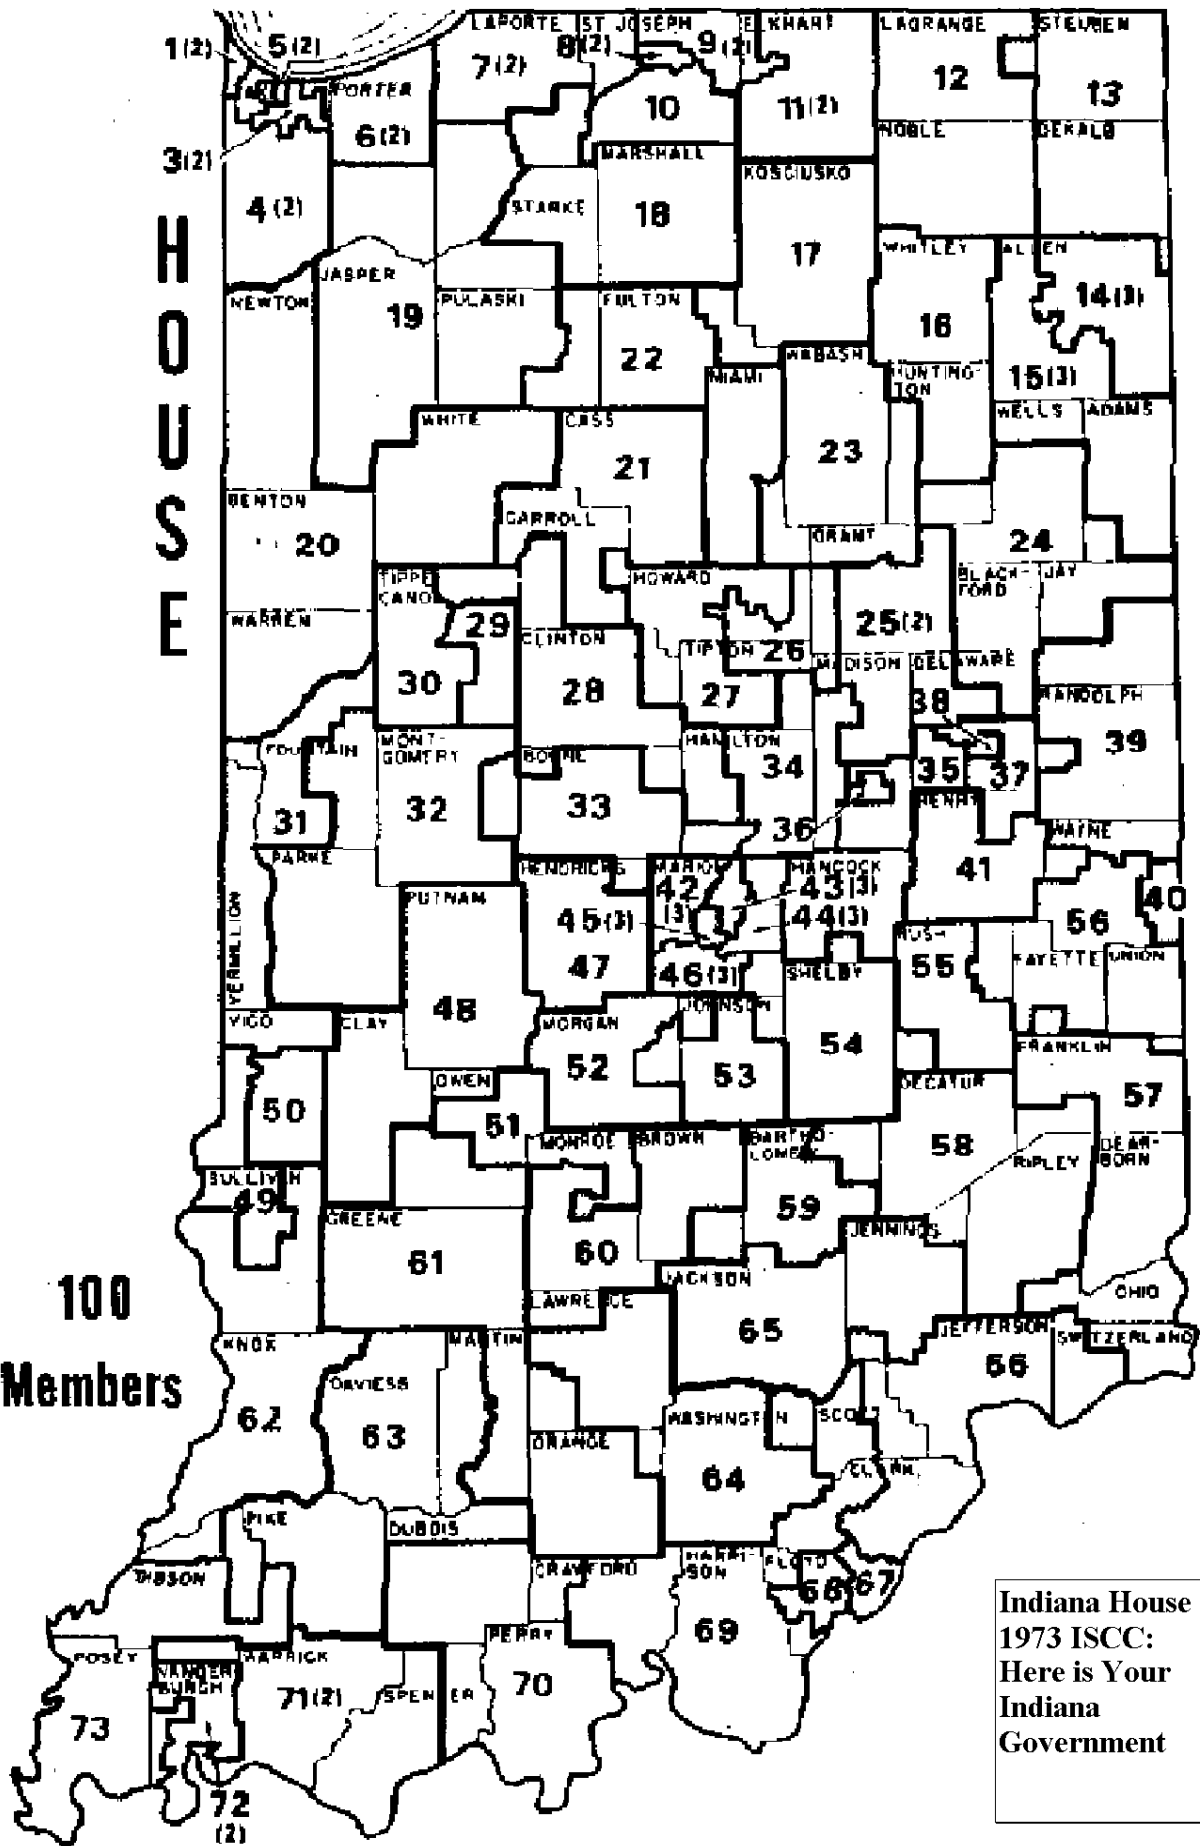

BOTTOM FIGURE — Number of seats which each county now has, either alone or shared with other counties. The figure .5 is arbitrarily used where two counties jointly elect a senator or representative; the figure .33 where three counties form a district, and the figure .25 where four counties form a district. **CURVED LINES** connecting counties indicate these districts.
