It was severe if true; but there is no satisfactory evidence that they gave him that many "receipts." Before he was whipped he acknowledged that he was guilty of counterfeiting; but "hadn't much of the money by him at the time." He said he had intended to burn the houses of Peter Norman, Thomas Todd, Joshua Blackwell, David Gray, and William Hopkins-that he and Margaret Anderson, his miss, attempted to rob his father Jesse Davar, Jupon whose evidence an indictment was found at the last Circuit Court against the two.] The whipping was administered after this confession, when he refused to disclose the names of his confederates. The application of lynch law produced the desired effect.

[For the News-Letter.] Rev. John Dick.

When in the great drama of the Universe he Savior of the world appeared to offer to all mankind the gift of life, he chose as his first lisciples the humble fishermen of Palestine.hese he addressed in words "such as man nevr spake," and instructed by an example of a lameless life; and to complete their preparation for the mighty work, he endowed them with inpiration itself. He intended for them to spend their lives in such a manner as would convince the world that their mission was divine, and that unspeakable happiness should be the reward of the faithful throughout ever-enduring time. for this purpose. Years passed on—the days of miracles were gone—the fires of persecution were kindledand the sweeping winds played with the ashes of the martyr. But a brighter day at length appeared—the Christian no longer writhed at the stake—and the protecting care of Heaven vatched over the land of "the free and the arave.

In this favored period flourished the Rev JOHN DICK. Born in the vicinity of a noted University, he received his education within its walls, and then went forth to proclaim the glad seize tidings of salvation to a dying world. Just at the commencement of his ministerial career, he little change in prices. There had been told an acquaintance that he intended to take considerable operations in flour, and prices especial care of the young sisters of his charge And no great while after, with the design of inducing a very talented young man to engage in the work of the ministry, he made these statements: "that he lived off the fat of the land. and that the chickens knew him and always by vay of New Orleans. A man possessed of such commanding talents ould not long remain in obscurity. He came upon a visit to the city of letters, to use his own words, in order to "jerk a woman." So great had his reputation become, that the minister in charge extended to him an invitation to preach arrival he delivered a long lecture upon the text, "It is not good for mon to be alone," to an audience of one person. His next discourse occupied the whole of the Sabbath forenconsubject: "Pulling the women." It was so interesting that two young men listened to it, in fly place of going to Church, which they had intended to do. At its conclusion he struck up stitulated by the Mexican internal comthat good old Methodist air : "Tar ump de da de iddle dill." &c.

Exhausted by these long continued labors, he sank upon his bed and spent several hours in refreshing slumber. When he awoke, to his extreme mortification, he found that the hour 11 was too late for him to be present at the Sunday School. At this time he presented such a woebegotten appearance that it was difficult to tell ed whether he was dead or alive. Melancholly Suicide.

A man named Charles Cook committed suicide by drowning, in this city on Thursday evening last. A more singular case of the kind perhaps is not on record. He was a German, and married about two months since, a German girl, as we understand, who has been living with Mr. J. C. Clark for several years. Since his marriage he has often threatened to destroy himself. which caused his friends much uneasiness. It appears that he was haunted with the foolish delusion that he and his wife were doomed to starvation, although he was a sober and industrious shoemaker, with steady employment, and had in his posses-sion at his death \$150 in gold, with every prospect of future success which may be drawn from prudence and economy. His disconsolate wife returned yesterday morning to Mrs. Clark's with her effects. A short time before he did the act he asked his wife to accompany him in a walk, which she said she would do in a few minutes, but he walked out, and was seen no more till one of a company of fishers about a mile below town, caught something tremendous heavy on his hook, when upon drawing it to the surface, to his inexpressible consternation he discovered to be the body of a drowned man, which proved to be that of poor Cook .- Vincennes Courant of Saturday last.

BALSAM FOR THE LUNGS,

The Great Purifier of the Blood. FOR THE CURE OF

An Invalinate Remon for Serofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptious, Pimples of Pustules on the Face, Blotches, Boils, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Disorders, Lumbago, Spinal Complaints, and all Diseases arising from an injudicious use of Mercury, Imprudence in Life, or Impurity of the Blood. bee of Mercury, Imprudence in Life, or impurity of the Blood.

This valuable Medicine, which has become celebrated for the number of extraordinary cures effected through its agency, has induced the proprietors, at the urgent request of their friends, to effer it to the public, which they do with the utmost confidence in its virtues and wonderful curative properties. The following certificates, selected from a large number, are, however, stronger testimony than the mere word of the proprietors; and are all from gentlemen well known in their localities, and of the highest respectability, many of them residing in the city of Richmond, Va.

F. Boyden, Esq., of the Exchange Hotel, Richmond, known everywhere, says he has seen the Medicine called Canter's Stranger Mixture administered in over a hundred cases, in nearly all the diseases for which it is recommended, with the most astonishing good results. He says it is the most extraordinary medicine he has ever seen.

recommended, with the most astonishing good results. He says it is the most extraordinary medicine he has ever seen.

AGUE AND FEVER—GREAT CURE.—I hereby certify, that for three years I had Ague and Fever of the most violent description. I had several Physicians, took large quantities of Quinine, Mercury, and I believe all the Tonics advertised, but all without any permanent relief. At last I tried CARTER'S SPANISH MIXTURE, two bottles of which effectually cured me, and I am happy to say I have had neither Chills or Fevers since. I consider it the best Tonic in the world, and the only medicine that ever reached my case.

Deaver Dain, near Richmond, Va.

C. B. Luck, Esq., new in the city of Richmond, and for many years in the Post Office, has such confidence in the astonishing efficacy of Carter's Spanish Mixture.

The Minge, a practising Physician, and formerly of the City Hotel, in the city of Richmond, says he has never known it to fall when taken according to directions.

Dr. Minge, a practising Physician, and formerly of the City Hotel, in the city of Richmond, says he has witnessed in a number of instances the effects of Carter's Spanish Mixture.

Samuel M. Drinker, of the firm of Drinker & Morris, Richmond, was cured of Liver Complaint of 8 years standing, by the use of two bottles of Carter's Spanish Mixture.

Wm. A. Matthews, of Richmond, had a servant cured of Syphilis, in the worst form, by Carter's Spanish Mixture. He says he cheerfully recommends it, and considers it an invaluable medicine.

ers it an invaluable medicine.

Richard E. West, of Richmond, was cured of Scrofula, and what Physicians called confirmed Consumption, by three bottles of Carter's Spanish Mixture.

Edwin Burton, commissioner of the revenue, says he has seen the good effects of Carter's Spanish Mixture in a number of Syphilitic cases, and says it is a perfect cure for that horrible disease.

Wm. G. Harwood, of Richmond, cured of Old Sores and Ulcers, which disabled him from walking. Took a few bottles of Carter's Spanish Mixture, and was enabled to walk without a crutch, in a short time permanently cured.

Here is a case:

BROOKLYN. N. Y., Dec. 20, 1853.

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in bed, getting what rest I could sitting in a chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours trigether my friends expected that each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to produce Dr. Curtis' Hygean or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I spelied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is—ray 12.

nuenza, Pathisic, Pain in the Side, and aff Diseases of the Chest and Lungs.

Dr. Hall's Balsam contains no Opium, Calomel, or any mineral poison, but is composed mostly of those Roots. Herbs, and Vegetable substances which have a specific influence upon the lungs and their connected organs. Its immediate effect is to allay all irritation and gently remove the phlegm and other morbid secretions from the Throat and Air-Passages, thus relieving the Cough, by subduing the inflammation and other causes which gave rise to it. It also stimulates and imparts a healthy tone to the Lungs themselves, thereby enabling them more thoroughly to remove from the blood these impurities and diseased particles, which, if retained, do so much mischief in the system, and lay the foundation for incurable CONSUMPTION. It also exerts a decided action upon the skin, and assists nature in expelling through the Exhalents, much of that morbid matter which would otherwise be thrown back upon the Lungs, thus relieving them of a part of their work, and rendering the system pure and healthy. When tubercles are forming, it checks their development and further progress; or if ulceration has taken I place, it assists the lungs in throwing off the corrupted matter, soothes the irritation, heals the ulcerated cavities, and restores them again to healthy action. This f Medicine, therefore, is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely, which all the progress is not a palliative merely. ties, and restores them again to healthy action. This Medicine, therefore, is not a palliative merely, which only relieves for the time being, but is a thorough ourative, as it strikes at the very root of the disease, and by removing it, removes at once all its remote and attendant consequences. This is its distinguished characteristic—a property possessed, in equal power, by no other medicine of like nature, now before the public.

increase of the crop; and the bearing season is thereby greatly prolonged. Much was said in the papers a year or two ago, about an "everbearing" strawberry found at New Orleans, and several enterprising horticulturists took pains to procure plants of it and test them at the North, but it was found that when removed from its favorite location, its bearing season lasted no longer than that of any other variety, and the whole secret of its productiveness consisted in deep and rich culture, plenty of water, and warm climate.

6. Choice of varieties. On this point some difficulty arises from the immense number of varieties that are named and recommended in the books and catalogues. We shall only speak of those that have been tested on the soils of Central and Southern Ohio. Among those we place first for productiveness, good size, and flavor, Burr's New Pine, and Hudson; for size and color, Hovey's seedling; for larger size and good flavor, McAvoy's superior, and Burr's Ohio mammoth. These are all pistillate varieties; and for a staminate variety to plant with one or more of the foregoing, we would use Large Early Scarlet, or Burr's old seedling. There are also seve-ral very good staminate varieties that have originated at Circinnati, but not generally known as yet.

7. Arrangement of Frants. The most productive and popular varieties of strawberry plants have what are termed pistillate flowers, and in order to seeme good crops of fruit, some plants of a variety having staminate flowers (as Early Scarle and Burr's old seedling.) must be larged. had not to plant one hed of ctar these men two beds of partitions knew some of in row across a l

Pains.

The chains were first introduced into New York city less than a year ago, and after being subjected to the most thorough trial in every Hospital in the city, by Drs. Valentine Mott, Post, Carnochan, Van Buren, readily discovered that they possess Strauge and Wonderful Power in the relief and cure of the above class of diseases they at once recommended, through the papers of the city, their general use, and their sale and the success that has attended their use, is unnaralleled.

were used in every Hospital in Europe, and are secured by patents in France, Germany, Austria, Prussic and England; and also in the United States. The Principles upon which it is claimed that the Chains produce their marvelous cures, are, first—that all Nervous Diseases are attended and produced by a deficient supply of Nervous Fluid, and an agent that resembles closely Electricity, or Electro Magnetism; and second—that the Electro Magnetic Chains, by being worn over and upon the part and organ diseased, furnish to the exhausted Nervous system, by its powerful stimulative effects, the Nervous Fluid which is required to produce a healthy action through the entire system. No Disgusting Nostrum is allowed to be taken while using the Chains, but a rigid observance to the general laws of health are required. Brisk Friction upon the part diseased adds much to the effect of the Chains, by increasing their Magnetic Power.

**\$1,000 will be given to any person who will produce so many well-authenticated certificates of permanent cures of the above mentioned diseases a have ween effected within the last year, by use of the Electro Chains Female Diseases.—The Electro Chains are rapid by superceding all Nostrums taken into the stomach for the relief and cure of his class of complaint.
