Our Prospects.

Ou readers will remember the announcement made in the first number of our paper, that it

was our purpose to establish a permanent newspaper in Bloomington. Since that time more than fifteen months have elapsed; and notwithstanding the illiberal and ungenerous attempts that some persons have made to discourage our enterprise, we have had the satisfaction of seeing our paper well sustained. It is true that some of the old-fashioned, straight-laced aboliber lest, we have gained three or four staunch the following resolutions: old-line Democrats and Whigs.

If we have succeeded thus far and kent un a rood paper, under the disadvantageous circumstances during the "hard times," what might we not do, if our friends and the public generally would exert themselves in our behalf?

The laborer is worthy of his hire! We have thus far worked faithfully for the interests of Monroe county. We have exerted every faculty of soul, mind, and body to give you good paper that should be an honor to this town and county; and shall our reward be only dust and ashes in our hands?

Give us a generous, liberal support in the way of advertising and subscription, and we will be enabled to increase the usefulness and interest of our paper in a corresponding degree. Will not each one of our subscribers call up on his neighbor, and induce him to subscribe? This would be but little trouble to you, and of great benefit to us.

Tornado-Life Lost-The Suspension Bridge thoroughly tested by Wind, and Triumphant

From a passenger who came up in the ears from Brockport, yesterday, we have received the following memorandum of the particulars of a terriable tornado which swept over the region of country along the line of the Rochester and Niagara Railroad, yesterday mroning about 7 o'clock. At Brockport the wind was so violent as

to tear down fences, uproot and twist off trees, and demolish chimneys by the wholesale. Huge hailstones, big as hens' eggs, fell in large quantities.

At Albion the blow was not so violent, butit was very dark; obliged to light lamps, Resolved, That while we love to "kiss the when the blow came on, there.) In many places, large trees were blown or twisted off at their trunks. Near were blown across the railroad track. Three or four houses in that neighborhood were blown down. A great number of dwellings were unroofed, and some utterly ruined. The gable end of the Scotch Presbyterian Church was blown in, slick and clean, and the building generally injured. A daguerrean wagon standing in Kalamazoo the street was keeled over, and the artist and his little son seriously hurt, the latter supposed fatally. A railroad car standing on the track was lifted up, bodily, and carried some four rods. Two schooners seen just before the blow came up, off Niagara, were not to be seen after it had passed over, and were supposed to have founded.

At the Suspension Bridge the blow was most violent doing more or less damage. The men who had just commenced work on the Bridge painting, &c., ran off when they saw the gale coming, and some were blown violently from one side to the other; one narrowly escaped being blown over screamed through the gorge, a perfect rush. One of the workmen said it "blew like Hell let loose." The bridge, however, sustained was perceptible, when the gale was at its highest pitch.-Buffalo Democracy of Thursday Morning

DEAR FRIEND—Thy letter has been received, and it is with pleasure that I certify to thee and the world that thy preparations called the Mother's Friend stands without a rival in medical practice. I have used it, and its effects surpass any preparations of that order I ever saw, in those distressing and weakening diseases to which the sex is liable. It quiets the nervous agitation, and restores the natural secretions. Therefore I can safely recommend it to the special attention of my female friends every where, believing they will find it a friend indeed.

DR. LEWIS'

MOTHERS' FRIEND.

HIS compound I have proved by practice of more than twelve years, and it has ever proved efficacious in the cure of discusses for which it is recommended, where there was any hope.

M. L. LEWIS,

Market st., between Second and Third.

On Enwis-I take great pleasure in informing you that I consider your Mother's Friend one of the very best compounds now offered to the public, and especi-

ally to afflicted temales. For my wife it has worked

winders after a long and tedious trial of three years with other medicines. After she had become much debitated and almost helpless, from the long continued use of useless drugs, she resorted to your Mother's Friend in connection with other prescriptions which you recommended. These she continued for a short length

of time when she recovered, and now enjoys the blessing of good health. One of my neighbors who was afflicted in a manuer similar to that of my wife, took the same articles and it produced a most wonderful and speedy eure. It should be found in every family—SAM. B. WOMAUK.

Da. Lewis—I have used and thoroughly tried your Methers' Friend, and find it to be one of the best compounds for fundle weaknesses now extant; and further say that it may well be styled the Mothers' Friend for

affer all specifies have faired, it has performed cures that appeared almost incredible.

JOS. CADWALADER.

Dr. Lewis-Dear sir: I cannot withhold my testi

mony as to the value of your Mothers' Friend. It has been used freely in my family in distressing complaints, and always with the best effects. It is decidedly the most valuable medicine for female complaints generally, I have ever known.

ASTHMA CURED.

Brooklyn, N. Y., Dec. 20, 1853.

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in bed, getting what reat I could sitting in a chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected that each hour would be my last. During the past six years I have had the aid and attendance of some of the most ce chrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis' Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is—ray ir.

Its immediate effect is to allay all irritation and gently remove the phlegm and other morbid secretions from the Throat and Air-Passages, thus relieving the Cough, by subduing the inflammation and other causes which gave rise to it. It also stimulates and imparts a healthy tone to the Lungs themselves, thereby enabling them more thoroughly to remove from the blood those impurities and diseased particles, which if retained, do so much mischief in the system, and lay the foundation for incurable CONSUMPTION. It also exerts a decided action upon the skin, and assists nature in expelling through the Exhalents, much of that morbid matter which would otherwise be thrown back upon the Lungs, thus relieving them of a part of their work, and rendering the system pure and healthy. CONSUMPTION CURED:

New York, Dec. 27 1853.

I came to New York in the ship Telegraph; my native place is St. John's New Brunswick; when I reached this city my health was very poor; had a very bad cough, raised a good deal of matter, which was frequently mixed with blood; bad pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis' Hygeana, or Inhaling Hygean Vapor and Chorry Syrup, and obtained a package, which I verily believe was the means of saving my life. Soon after wearing the Inhaler; I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I new consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it.

Paying Interest on Deposits.—We cannot refrain from saying here, that the custom of paying interests on deposits, as practiced by unincorporated Banking practiced by unincorporated Banking Houses, is in the highest degree pernicious. It is an illegitimate, unsafe business. The rate paid for deposits is all that money is ordinarily worth. If not loaned again, it will be eat up by the Banker; if loaned, it must be at an exorbitant per cent. OTICE OF THE DISCONTINUANCE OF THE U. S. LAND OFFICES AT JEF-FERSONVILLE, VINCENNES, AND WINA-MAC, INDIANA.—Under the provisions of the second section of the act of Congress approved June 12, 1840, which declares "that whenever the quantity of public land remaining unsold is any land district shall be reduced to a number of acres less than one hundred thousand, it shall be the duty of the Secretary of the Treasury to discontinue the land office for such dis-trict; and if any land in any such district shall remain unsold at the time of the discontinuance of a land ofice, the same shall be subject to sale at sor in which the land office shall have been discontinued, of which the Secretary of the Treasury shall give notice;" and inasmuch as the 7th section of the act approved 4th September, 1841, authorizes the Secretary of the Treasury to continue any land district in which is situated the seat of government of any one of the States, notwithstanding the quantity of land unsold in such district may not amount to one hundred thousand acres, when in his opinion such continuance may be required by public convenience, or in order to close the land system in such State at a convenient point, under the provisions of the act on that subject approved June 12, 1840; and insumuch as the duty above required has been devolved upon the Secretary of the Interior by the "act to establish the Home Department," approved 3d March, 1849:

"act to establish the Home Department," approved 3d March, 1849:

Notice is accordingly hereby given, that, in view of reports from the land officers at Jeffersonville, Vincennes, and Winamae, that the vacant land in each of said districts is reduced below one hundred thous and acres, the Secretary of the Interior, with the approbation of the President, has directed that the land offices at Jeffersonville, Vincennes, and Winamae, in the State of Indiana, be discontinued, and the lands remaining unsold at the time of the discontinuance be made subject to sale at the land office at Indianapolis, the seat of government in said State.
