NIGGER ON THE PLATFORM.—The State Sentinel says: "The Journal accuses us of falsehood in stating that there was a negro on the platform at the Fusion Convention of the 13th .-Well, why, in the name of common sense, shouldn't there have been a negro on the platform, or a dozen of them, for that matter ?-They had a perfect right to be there. Will the Journal pretend to say that they had no right upon the platform? Why, then, make a "fuss" because they saw proper to cooperate with their white brethren in the proceedings of an Abolition Convention?

CARRYING OUT THE PRINCIPLE. - As an Abolitionist and a nigger, on the day of the Great Fusion, Abolition, Know Nothing Convention in Indianapolis, were passing up to the State House Square together, they stopped at one of the public pumps, and the Abolitionist, taking the tin cup suspended from it, pumped it full of water, and handed it to his colored companion, who drank a portion of it, passed it back to the white nigger, who drank the balance. This is carrying out the principle adopted by the Fusion Convention, that a "white man is nearly handsomely thrashed out in the Lowell (Mass.) cal demagogue, and shun a lodge as a as good as a nigger, if he behave himself."

Communications.

We have just received a communication from an old friend. It is too long to publish entire, but we give a portion of his letter:

"I lang hae thought my youthfu' friend, A something to have sent you, The' it should serve no other end Than just a kind memento."

I am a kind of an amphibious creature, neither a K. N. nor an Anti. Now, my young friend, let me write you a short epistle on what I fear you or your readers may think is illtimed, uncalled for, and out of place in this fast day and generation-I mean, ADVICE.

If you think Know Nothingism is dangerous to this Union, sound the tocsin long and loud, let cowards and eaves-droppers throw their last stone from their corners, then you will receive credit for candor, and subscribers that pay cash. The friends of the Constitution of the National Union, of the peace and harmony tional sentiments, of civil and religious liberty-who will maintain the laws and the honor of the country and the perpetuity of Free Government, have determined to fare of their common country.

In consequence of the sentiments of disunion and sectional Abolitionism, of intolerance, and the agitation of distracting questions which were promulgated and adopted by the Fusion Abolition Convention which assembled at Indianapolis on the 13th of July, inst., the Democrats of Indiana, in their capacity of civil citizens, feel themselves called upon to take measures to repudiate the dangerous principles which have been put forth by these fanatical destructionists.

Men of every political creed and belief who are now opposed to the heresies of these Abolition leaders, and who are ready to uphold and sustain our National Constitution and the union of the States, the sacred principles of civil and religious ABEDNEGO, passed through the (political) fiery liberty, the individual rights of the citizen furnace and came out unscathed. If our returned to the office of Secretary of State, neighbors make their dislike to our Presbyterian sentiments the ground of their refusing to vote for us, it is perfectly useless to disguise that we are under political responsibility for religious opinions—that, quad hoc, we are suffering for them. THE TRUE GRIT.—A young man of this county recently made proposals of marriage to one of our farmers' daughters whose father is an Englishman. She inquired whether he was or was not a Know Nothing, at first he equivocated, but acknowledged that he was. Upon this the lady informed him that she could neither love nor marry a man, who would politically degrade her father and brothers. He acknowleged his error and has withdrawn from the Hindoos, and no doubt feels that he is a better man, and intends to do better for the future. The woman that does not love her father would not be suitable for a wife, and the man that does not respect his father-in-law will surely make a mean husband.—Brookville Dem.

College Commencement,

The commencement exercises of the State University, the past week, were of a highly interesting character-more so than any preceding commencement for the last fifteen years. There were a great many visitors from abroad; and all the exercises, which were held in a beautiful the persons who delivered addresses, upon whom grove in the campus, were attended by very degrees were conferred by Dr. Daily: large audiences.

BACCALAUREATE.—On Sunday evening, at 3 o'clock, Dr. Dater delivered an excellent and appropriate Baccalaureate Address. His subject was the "Heroic Man." Our space this week does not permit a further notice of this excellent Address. It has been published in pamphlet form.

Address of Rev. Wm. P. Strickland, D. D. -On Monday evening, Rev. Wm. P. STRICK-LAND, D. D., of Cincinnati, delivered an Address before the Philomathean Society. His subject was: "Genius and its Relations." It was a very well written Address, and would read well in print. His manner and language were graceful, fluent, and eloquent. He did what few clergymen are willing to do-justice to the memory of Lord Byron.

JOHN O. BULLOCK, Esq., of Louisville, who had been chosen to deliver the Annual Address to the Alumni, not being present, quite a number of extemporaneous speeches were delivered by the Alumni in attendance, very much to their own edification, and the amusement and entertainment (?) of the audience.

The following resolution was offered by A B. Carlton, and unanimously adopted:

Resolved, That the unwearied exertions and personal sacrifices made by Messrs. Tarkington and Buskirk, the Senator and Representative of Monroe county, in laboring for the resolution for the endowment of the State University, during the past winter, merit the warmest approbation of their constituents, and of the friends of education throughout the State.

The following resolutions, offered by SAMUEL H. Buskirk, Esq., were also unanimously adopt-

Resolved, That we recognize and acknowledge with gratitude and pleasure our obligations to the Senators and Representatives who voted for the Bill, his Excellency, Gov. JOSEPH A. WRIGHT, Hon. A. P. DUNN, JON-ATHAN W. GORDON, WILLIAM B. BEACH, SAMUEL CARRINGTON, WILLIAM M. FRENCH, R. W. AKIN, and many other gentlemen, who, by their influence and their exertions materially contributed to the success of the measure.

Resolved, That the Faculty and Students of the University, who adhered to it throughout highly interesting articles. The price is \$3 per the most discouraging season through which an institution of learning ever passed, are entitled to the thanks of the public.

The members then proceeded to elect a speaker for the next annual meeting, which resulted in the choice of George G. Wright, of Keosauqua, Iowa; and ROBERT L. RUDDICK, of Keokuk, Iowa, as alternate.

REV. SIDNEY DYER'S POEM.—On the same evening, before the same society, Rev. Sidney DYER, of Indianapolis, delivered a poem on this Board; for, it is their unanimous desire and "Love and Song." It would be a fair estimate to say that in ninety cases out of every hundred, the stories circulated in the New York press are wholesale fabrications, without even plausibility to rest upon. It is humiliating to see any man so utterly degraded as to unhesitatingly coin lies for the mere purpose of misleading the public mind. A state of things like this betrays a degree of degradation in the press, and of personal profligacy in its conductors, that may well excite serious apprehensions. We have already exposed the calumny

Breaking to Pieces.

The Know Nothings, besides proving a eaky and unworthy sea-boat, has had the misfortune of having unskillful, undiscreet and reckless pilots. Never was a vesselso badly managed, never so completely wrecked. She now lies amid the breakers, rapidly going to pieces, with no sympathy from those who witness the spectacle, and nothing but discord and bitterness of feeling among those on board the stranded ship.

Our readers have seen how, in the States of Maine, Vermont, Connecticut, Massa-chusetts, Pennsylvania, Ohio, Indiana and Illinois, the platform of the National Convention has been scornfully and contemptuously repudiated. We have now to add another to the list of these repudiating States. The telegraphic dispatches advise us of the action of the New Jersey State Council dissolving all connection with the National Council. Thus shorn of its strength, how can the party hope to live. It cannot in any possible contingency make even a respectable appearance in the coming Presidential contest.

The organization has broken to pieces at the North, and a similar disruption will soon occur at the South. Already, in every town throughout Kentucky, do we see members deserting the sinking ship. It is well that it is so. Why should men, careful of their reputation, and aiming at the good of the country, abide with a society or party, the management of which is cents by the recent act. Prepayment here, as vested in the most unscrupulous politicians? in other cases, is required. We understand Let the craft break in pieces. Its battered that letters for the Pacific continue to be put and bruised hulk, its scattered and tattered rigging, will prove a lasting and, perhaps, salutary commentary upon the insufficiency of political jugglers, as helmsmen in times of emergency, when self-sacrifice is necessary.—Lou. Has recently been made by Dr. Curtis of this city, in the treatment of Consumption, Asthma, and all diseases of the lungs. We refer to "Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. O. has restored many afflicted ones to perfect health; as an evidence of which he has innumerable certificates. Speaking of the treatment a physician remarks:—It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the arial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the druggists throughout the country. (From the New York Dutchman of Jan. 14th.)

Medicated Inhalation.

A NEW METHOD. MOST WONDERFUL DISCOVERY has recent-

MOST WONDERFUL DISCOVERY has recently been made by Dr. Curris, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhelation. Dr. CURTIS HYGEANA, or INHALING HYGEAN VAP.)R and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the City of New York and vicinity for a few months past, ever known to man. It is producing an impression on Diseases of the Lungs never before witnessed by the Medical Profession. [See certificates in hands of agents.]

The Inhaler is worn on the breast, under the linen, it is necessary to be the least inconvenience, the heat of the body without the least inconvenience, the heat of the body being sufficient to evaporate part of the fluid,—supplying the lungs constantly with a healing and agreeable vapor; passing into all the air-cells and passages of the lungs that cannot possibly be reached by other medicine.

The heat of the body Tonics advertised, but an intenductary permanent rener. At last I tried Carrier's Spanish Mixture, two bottles of which effectually cured me, and I am happy to say I have had neither Chills or Fevers since. I consider it the best Tonic in the world, and the only medicine that

In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoon rul of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is - TRY IT.

CONSUMPTION CURED: NEW YORK, Dec. 27 1853.

I came to New York in the ship Telegraph; my native place is St. John's New Brunswick; when I reached this city my health was very poor; had a very bad cough, raised a good deal of matter, which was frequently mixed with blood; bad pain in my left side, and willingly gone a thousand miles to see it. It is a sight to remember while one lives. It was late in the evening of the 30th of April, I think, that my servant entered the room, with a face of eagerness, exclaiming: "Il Vesuvio fa fuscol" (that is, makes fire.") I ascended to the terrace of the house, and there became aware that I was at last to witness an eruption. Through a good telescope I could distinguish on the Northern slope of the cone and about two-thirds of the way up the mountain, a small crater throwing up red-hot stones, and the lava descending from it.

The chains were first introduced into New York city, the chains were first introduced into New York city, less than a year ago, and after being subjected to the most thorough trial in every Hospital in the city, by Drs. Valeutine Mott, Post, Carnochan, Van Buren, readily discovered that they possess Strange and Wonderful Power in the relief and cure of the above class of diseases; they at once recommended the they at once recommended, through the papers of the city, their general use, and their sale and the success that has attended their use, is unparalteled.

Previous to their introduction into this country, they were used in every Hospitalian Europe, and are secured by patents in France, Germany, Austria, Prussia and England; and also in the United States.

"Think Close and Ponder Well,"

The Principles upon which it is claimed that the Chains produce their marvelous cures, are, first—that all Nervous Diseases are attended and produced by a deficient supply of Nervous Fluid, and an agent that resembles supply of Nervous Fluid, and an agent that resembles closely Electricity, or Electro Magnetism; and second—that the Electro Magnetic Chains, by being worn over and upon the part and organ diseased, furnish to the exhausted Nervous system, by its powerful stimulating effects, the Nervous Fluid which is required to produce a healthy action through the entire system. No Disgusting Nostrum is allowed to be taken while using the Chains, but a rigid observance to the general laws of health are required. Brisk Friction upon the part discussed adds much to the effect of the Chains, by increasing their Magnetic Power.

\$1,000 will be given to any person who will produce so many well-authenticated certificates of permanent cures of the above mentioned diseases as have been effected within the last year, by use of the Electro Chains Female Diseases.—The Electro Chains are rapid by superceding all Nostrums taken into the stomach for Female Diseases.—The Electro Chains are rapid ly superceding all Nostrums taken into the stomach for the relief and cure of this class of complaint.
