The body of Mr. H. was found about 150 yards from the scene of the disaster, and it was supposed that it had been blown entierly over the tops of the trees! The only remains of clothing on him were a portion of the shirt collar, a portion of one boot, and a strip of one of the legs of his pantaloons. The body was as limber as a rag, the bones being apparently mashed to a jelly.

The name of the person who was woundproduce of at least fifteen millions of farmed we could not ascertain. His leg was broken. He was a passenger. These three were the only persons on the train. The cause of the explosion is unknown and probably will never be ascertained, as the only persons who could give any information on the subject are dead. Portions of the locomotive were found distant a hundred and fifty yards from the scene of the accident, els of wheat and corn for export to other and the track of the road was forn up for States. LJAS a SPRING and SUMMER MEDICINE, Carter's Spanish Mixture stands pre-eminent above all others. Its singularly efficacious action on the blocd; its strengthening and vivifying qualities; its tonic action on the Liver; its tendency to drive all humors to the surface, thereby cleansing the system according to Nature's own prescription; its harmless, and at the same time extraordinary good effects, and the number of cures testified to by many of the most respectable citizens of Richmond, Va., and elsewhere, must be conclusive evidence that there is no humbug about it.

The trial of a single bottle will satisfy the most ceptical of its benefits.

DR. LEWIS'

THIS compound I have proved by practice of more than twelve years, and it has ever proved efficacions in the cure of diseases for which it is recommended, where there was any hope.

Market st., between Second and Third. JEFFERSON Co., Ky., March, 1855.

Da. Lewis-I take great pleasure in informing you that I consider your Mother's Friend one of the very lest compounds now offered to the public, and especially to afflicted females. For my wife it has worked wonders after a long and tedious trial of three years with other needicines. After she had become much depiliated and almost helpless, from the long continued use of useless drugs, she resorted to your Mother's Friend in connection with other prescriptions which you recommended. These she continued for a short length of time, when she recovered, and now enjoys the blessing of good health. One of my neighbors who was afflicted in a manner similar to that of my wife, took the same articles and it produced a most wonderful and speedy cure. It should be found in every family-SAM. B. WOMACK.

after all specifics have failed, it has performed cures that appeared almost incredible. JOS. CADWALADER. LOUISVILLE, Ky., 1854.

Dr. Lewis—Dear sir: I cannot withhold my testimony as to the value of your Mothers' Frieud. It has been used freely in my family in distressing complaints, and always with the best effects. It is decidedly the most valuable medicine for female complaints generally, I have every heavy. WM. C. TAYLOR. WORTHINGTON, Ind., 1854.

The Lewis—I have sold for the last two years your female modicine called the Mothers' Friend, and I never sold an article that gave better or more general satisfaction.

DEAR 'FRIEND—Thy letter has been received, and i

is with pleasure that I certify to thee and the world that thy preparations called the Mother's Friend stands without a rival in medical practice. I have used it, and its effects surpass any preparations of that order I ever saw, in those distressing and weekening diseases to which the sex is liable. It quiets the nervous agitative tion, and restores the natural secretions. Therefore can safely recommend it to the special attention of my female friends every where, believing they will find it a friend indeed. DR. J. TRUEBLOOD. Hodginsville, July, 1854.

Dr. Lewis-I have been using your Mothers' Frien in my practice, and it acts promptly as directed and for the uses for which it is recommended. One of my patients had been afflicted in a manner to be unable to ride on horseback for four years, but after taking one bottle of your Mothers' Friend, she rode six miles and Yours, DR. It also stimulates and imparts a healthy tone to the Lungs themselves, thereby enabling them more thoroughly to remove from the blood those impurities and diseased particles, which, if retained, do so much mischief in the system, and lay the foundation for incurable CONSUMPTION. It also exerts a decided action upon the skin, and assists nature in expelling through the Exhalents, much of that morbid matter which would otherwise be thrown back upon the Lungs, thus relieving them of a part of their work, and rendering the system pure and healthy. when tubercles are forming, it checks their development and further progress; or if ulceration has taken place, it assists the lungs in throwing off the corrupted matter, soothes the irritation, heals the ulcerated cavities, and restores them again to healthy action. This Medicine, therefore, is not a palliative merely, which only relieves for the time being, but is a thorough curative, as it strikes at the very root of the disease, and by removing it, removes at once all its remote and at-tendant consequences. The Brain and Intellect. At the thirty-first annual meeting of the Society of Natural Philosophers in Germany, at Gottingen, last year, Dr. Professor Huschke, from Jena, communicated some remarks upon the mutual connexion between the cranium brain and soul of men and animals. It is a generally received opinion among the physiologists, that the convolutions of the brain exercise an important influence upon the mind. It follows from Huschke's researches, that, vice versa, the mind exercises an important in fluence upon these convolutions. He has noticed that the brain convolutions in herbiterous animals—as sheen oven horses request of their friends, to offer it to the public, which iverous animals—as sheep, oxen, horses, etc., differ from those in wild animals—as wonderful curative properties. #### What Every Woman Should Know.

Every woman should know that if she is in poor, sicky, debilitated condition of health, making existence a burden to herself and a source of painful anxiety to her relatives and friends, and, perhaps, (horrible reflection!) entailing and inflicting her own maladies and sufferings upon her children, that it is her duty to understand why and from what cause her sufferings arise, that remedy and relief may, while yet there is time, be availed of, the causes be avoided in future, and her health restored that she may be fitted for the duties and capable of the enjoyments of life.

Let every woman look at the emaciated form, the death-like complexion, the deep-buried, lusterless eye, the sucken cheek, the gleomy and depressed spirits, the shattered nerves, the prostrate and helpless condition of many a wife, mother, daughter or sister, if not herself included, within her own circle, whose days are days of
