Our Principles.

As the News Letter is obtaining a circulation far beyond our expectations, and as we have received letters frequently of late from gentlemen in the Southern and Western States requesting us to send them specimen numbers of our paper, we have thought proper to embody, in a succinct form, the principles and measures which we shall advocate to the best of our humble abilities:

1. The Constitution of the Union—the only true guide for faithful political action, nationally and locally. Laws established to secure the enforcement of the pro-Laws testing the Constitution must be sustained.

2. States and Territories—forever the sole architects.

of the domestic regulations, and States asking for admission into the Union to be received, subject only to mission into the Union to be received, subject only to constitutional requirements.

3. No geographical lines that shall array one section of the Union against the other. No barriers, geographical or political, between the North and the South, but a great and harmonious family of States.

4. A welcome to the oppressed of all the world. We are the lower of notwalization as they stand.

accept the laws of naturalization as they stand. 5. Free and untrammeled exercise of the mind in all matters of religion.
6. Secret political societies are opposed to the spirit and genius of our free institutions. Measures that cannot withstand public scrutiny should perish in the minds that conceived them. Men who cannot boldly matters of religion.

minds that conceived them. Men who cannot boldly avow their sentiments should remain in that obscurity for which their midnight associations befit them.

7. The Democracy of Jefferson, and of Jackson, in all its length and breadth.

8. Opposition to the Prohibitory Liquor Law of Indiana; and all other tyrannical and impracticable sumptuary legislation, which seeks, under plausible pretexts, to interfere with our intimate personal liberties.

ASTHMA CURED.

BROOKLYN, N. Y., Dec. 20, 1853.

For about eight years I have been severely afflicted For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in bed, getting what rest I could'sitting in a chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected that each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physical and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis' Hygeana or Inhaling Hygean Vapor POR ERLY of New York, desires to inform the inhabitants of Bloomington and vicinity that having been engaged in the above business for twenty years, flatters himself that he can execute work that and was in great distress, almost suffecting for want of the control of the cont breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoon ful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. Dr. Lewis—I take great pleasure in informing you that I consider your Mother's Friend one of the very best compounds now offered to the public, and especially to afflicted females. For my wife it has worked wonders after a long and tedious trial of three years with other medicines. After she had become much debiliated and almost helpless, from the long continued use of useless drugs, she resorted to your Mother's A MOST WONDERFUL DISCOVERY has recently been made by Dr. Curris, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. Lewis-I have used and thoroughly tried your Mothers' Friend, and find it to be one of the best compounds for female weaknesses now extant; and further say that it may well be styled the Mothers' Friend for after all specifics have failed, it has performed cures that appeared almost incredible.

JOS. CADWALADER. Louisville, Ky., 1854.

Dr. Lewis—Dear sir: I cannot withhold my testimony as to the value of your Mothers' Friend. It has been used freely in my family in distressing complaints, and always with the best effects. It is decidedly the most valuable medicine for female complaints generally, I have ever known.

Dr. Lewis—I have been using your Mothers' Friend in my practice, and it acts promptly as directed and for the uses for which it is recommended.
