The Banks of the Country-Their General Good Condition-Loss on Bank Paper-Our Gold and the Bank of England-Large National Revenue, &c.

The report of the Secretary of the Treasury on the condition of the banks throughout the Union is more favorable to the credit and safety of those institutions than was anticipated a year or two ago. The great expansion of the paper currency in consequence of the influx of gold had caused some alarm, and the drain of our gold to pay for large importations was, as many thought, likely to lead to a collapse of the banks. But from this calamity we have escaped, and the banks generally are as sound as at any former time, while they yet greatly assist in the conduct of the business concerns of the country.

The reported bank capital is now about three hundred and thirty-three millions, while their specie amounts to fifty-three millions, and their circulation to one hundred and eighty-six millions. In some of the States a few banks fell into such discredit that their notes were worthless, but generally the bank paper has served the purpose of a circulating medium. It would be well if the Secretary, in his next report, would give us a statement of the amount of the loss to the community through broken bank paper. The sum will be found very considerable; but this is an evil that is inseparable from the system, which we must continue to endure, even should it be attended with occasional inconvenien-

A New York paper expresses the apprenension that the pressure for gold will become so great in England that a suspension of specie payments will follow, as in the war growing out of the French revolution. Should this occur, its effect will not be to increase, but much to diminish the drain of gold from this country. Importations are swelling up to the maximum of the flush times of 1854, in consequence of our having become again able to pay for them. Everything wears an appearance mate, not less than eighty-five millions, including ten from the lands. Congress must be industrious and ingenious also to find ways to expend all this money. They will be assisted by numerous outside advisers in their arduous task.

The Expedition against Odessa.

The allied fleet, which, according to the last news, sailed on a secret expedition from Sevastopol, achored off Odessa on the 8th of October. Prince Gortschakoff reports that the force consists of eight ships of the line, twenty-seven steamers, and one other vessel. No news of the bombardment had been received up to the latest dates, but was expected immediately. Odessa, since the destruction of the corn ports in the sea of Azoff, has formed the chief, if not the sole means of support of the Russian army in the Crimea. The Case Against Williams and Wife.

Commenced on Friday, the 26th ult., before J. M. Sluss, Esq., was not decided until late witnesses, mostly for the defendants. The defendants brought several witnesses from Noblesville, and several from New Albany, by whom they proved that they had long sustained the character of reputable citizens. They also proved that they had received some money before they came to this place. By two girls that live with them, they proved that they had brought a considerable sum of money here with them, and that they (the girls) had seen the money since they came to this town. We forbear giving the evidence in detail, especially for the prosecution, inasmuch as the Grand Jury is in session, and will probably take this matter up for investigation. Our Principles.

As the News Letter is obtaining a circulation far beyond our expectations, and as we have received letters frequently of late from gentlemen in the Southern and We stern States requesting us to send them specimen numbers of our paper, we have thought proper to em-

1. The Constitution of the Union—the only true guide for faithful political action, nationally and locally. Laws established to secure the enforcement of the provisions of the Constitution must be sustained. 2. States and Territories—forever the sole architects of the domestic regulations, and State s asking for admission into the Union to be received, subject only to Constitutional requirements.

3. No geographical lines that shall array one section of the Union against the other. No barriers, geo-graphical or political, between the North and the South, but a great and harmonious family of States. but a great and harmonious family of States.

4. A welcome to the oppressed of all the world. We accept the laws of naturalization as they stand.

5. Free and untrammeled exercise of the mind in all

6. Secret political societies are opposed to the spirit and genius of our free institutions. Measures that cannot withstand public scrutiny should perish in the minds that conceived them. Men who cannot boldly ayow their sentiments should remain in that obscurity

avow their sentiments should remain in that obscurity for which their midnight associations befit them.

7. The Democracy of Jefferson, and of Jackson, in all its length and breadth.

8. Opposition to the Prohibitory Liquor Law of Indiana; and all other tyramical and impracticable sumptuary legislation, which seeks, under plausible pretexts, to interfere with our intimate personal liberties.

Louisville, April 5, 1855 Hurley's Sarsaparilla is what is represented, and I believe it the most wonderful medicine before the public. Nothing under heaven could induce me to say so without proof of the strongest and surest kind; therefore I speak willingly and positively on the subject.

My daughter has been afflicted with skin diseases and stiffness of the joints for several years. I employed the principal physicians of this city, and they could not principal physicians of this city, and they could not cure her. I gave her your Sarsaparilla, not expecting it would do much good, but, to my great astonishment, she rapidly got well, and, thank God, continues so.—Hind she been taking any other medicine, I would not give this certificate; but your Sarsaparilla, the only remedy employed, leaves no doubt of its medical qualities, and that it alone cured her.

Signed,

LUKE REYNOLDS.

Any person requiring the truth and honesty of this statement, will find me at my residence, corner of Kinth and Walnut streets, Louisville.

DR. HUBLEY—Sir: I have used your Sarsaparilla in Cholorosis, Ameorhoa Leucorrhea, (Whites,) and many other diseases connected with the female organization and always found a happy result within a shorter space of time than is usually expended in the treatment of time that its usually expended in the treatment. It is decidedly preferable as a general tonic to quinine, or preparations of iron, and am fully satisfied that it will become an established item in the physician's recipe.

Respectfully yours, ROBT. B. ABLETT, M. D. ELIZABETHTOWN, III.

Medicated Inhabation.

A NEW METHOD.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. Curris, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS' HYGEANA, or INHALING HYGEAN VAP.) R and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the City of New York and viginity for a few months past, ever known to man. It is producing an impression on Diseases of the Lungs never before witnessed by the Medical Profession. [See certificates in hands of agents.]

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate part of the fluid,—supply. being sufficient to evaporate part of the fluid, -supply ing the lungs constantly with a healing and agreeable vapor; passing into all the air-cells and passages of the lungs that cannot possibly be reached by other medicine. Here is a case:

ASTHMA CURED.
Brooklyn. N. Y., Dec. 20, 1853.

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time. I have not been able to sleep in bed, getting what rest I could sitting in a chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected that each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis' Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoon ful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfort able night. I have since continued with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is—ray ir.

MARGARET EASTON CONSUMPTION CURED! New York, Dec. 27 1853.
I came to New York in the ship Telegraph; my na-

five place is St. John's New Brunswick; when I reached this city my health was very poor; had a very bad cough, raised a good deal of matter, which was frequently mixed with blood; bad pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis' Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily be lieve was the means of saving my life. Soon after wearing the Inhaler; I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it.

DR. LEWIS' MOTHERS' FRIEND.

HIS compound I have proved by practice of more than twelve years, and it has ever proved efficaed, where there was any hope.

M. L. LEWIS, Market st., between Second and Third. JEFFERSON Co., Ky., March, 1855.

Dr. Lewis—I take great pleasure in informing you that I consider your Mother's Friend one of the very lest compounds now offered to the public, and especially to afflicted females. For my wife it has worked wonders after a long and tedious trial of three years with other medicines. After she had become much debiliated and almost helpless, from the long continued use of useless drugs, she resorted to your Mother's Friend in connection with other prescriptions which you recommended. These she continued for a short length of time when she recovered, and now enjoys the blessof time, when she recovered, and now enjoys the blessing of good health. One of my neighbors who was afflicted in a manner similar to that of my wife, took the same articles and it produced a most wonderful and speedy cure. It should be found in every family SAM. B. Mothers' Friend, and find it to be one of the best compounds for female weaknesses now extant; and further say that it may well be styled the Mothers' Friend for after all specifics have failed, it has performed cures that appeared almost incredible.

JOS. CADWALADER.

Louisville, Ky., 1854. Dr. Lewis—Dear sir: I cannot withhold my testimony as to the value of your Mothers' Friend. It has been used freely in my family in distressing complaints, and always with the best effects. It is decidedly the most valuable medicine for female complaints generally, I have ever known.
