Polish Poles.

Very few people in America, and I trust in Texas, know the social, political and religious position of the Polish Poles. Why is it, then, that while hundreds of young men and women are coming to Texas from other parts of the world, the Polish Poles are not coming to Texas? Of course, they are, but I refer to the natural immigration. It is true that some of the Poles are coming to Texas, but it is true that the majority of them are not coming to Texas. The reason for this is that they are coming to Texas, not because they want to, but because they must. They are coming to Texas because they are driven away from their homes in Europe. The Polish Poles are suffering greatly under the Russian Government, and they are finding it necessary to seek refuge elsewhere. They are coming to Texas because they cannot stay in Europe any longer.

The Country's Condition.

The country is in a bad way. The finances of the country are in a bad way. The crop is bad, the prices are low, and the people are poor. The country is in a state of depression, and the people are suffering. The country is in a state of distress, and the people are in want.

The War of Rebellion.

The war of rebellion has been going on for some time. The Southern Confederacy is fighting against the United States. The Southern Confederacy is fighting for its independence. The Southern Confederacy is fighting for its rights.

The Last Days of the Confederacy.

The last days of the Confederacy are near. The Southern Confederacy is losing ground. The Southern Confederacy is losing men. The Southern Confederacy is losing money.

The War's End.

The war's end is near. The Southern Confederacy is going to be defeated. The Southern Confederacy is going to be destroyed. The Southern Confederacy is going to be conquered.

The War’s End.

The war's end is near. The Southern Confederacy is going to be defeated. The Southern Confederacy is going to be destroyed. The Southern Confederacy is going to be conquered.
