TRAIN CONTROL BIDS**
New York Central to Equip Five Divisions at an Estimated Cost of \$4,000,000

Nine bids for automatic train control systems for five divisions of the New York Central lines were opened last week. This work, estimated to cost between \$4,000,000 and \$5,000,000, is the first move in the installation of the new system on the entire railroad at a total cost of approximately \$70,000,000.

The companies which submitted bids had been figuring on the improvement since early in December of the undertaking the companies repeatedly asked for an extension of time.

The five divisions to be equipped include one each on the New York Central, the Erie, the Delaware and Hudson, the Pennsylvania, the Boston and Albany, the Big Four, and the Pittsburgh & Lake Erie. The installation originally was ordered by the interstate commerce commission under an order dated in June, 1922, and was completed by January 1 of next year.

**\$300,000 ASKED FOR
ELLIS ISLAND WORK**
President Transmits to Congress the Budget Director's Items to Remedy Conditions

WASHINGTON, Jan. 28.—An appropriation of \$300,000 for improving conditions at Ellis Island, was asked of Congress Tuesday by President Coolidge, who transmitted a letter from Director of the Budget, General Lord, to the Senate. General Lord's statement declared that the changes to be made at the island, which has been complained of in recent months.

"There are now about 350 beds at the immigration station, while the reserved for women and children," the letter stated. "The remainder of the sleeping accommodations consist of canvas bunks, each bunk being equipped with five blankets, two to be used as a mattress and three as cover."

"These bunks have come in for a large percentage of the criticism directed against Ellis Island."

"Under the new plan it is proposed to equip the dormitories with enamel beds, with springs, mattresses, pillows, sheets, spreads, stools, bedside tables, mirrors, etc. This item also includes equipment for the kitchen, laundry, kitchen, and recreation grounds."

"This will cost \$50,000."

Other improvements asked for, include remodeling and repairing the ground floor of the main building and the ticket office for primary inspection purposes at a cost of \$40,000.

**PRESIDENT READY TO
ACT IN OIL MUDDLE**
Daugherty Ordered to Start Prosecution in Fall Case If Evidence Warrants

WASHINGTON, Jan. 26.—President Coolidge is taking an active personal interest in the developments in the Teapot dome oil lease hearings before the Senate's special investigating committee. He has ordered Attorney-General Daugherty to have an observer at the hearings to watch for any evidence of wrongdoing, and Attorney-General Daugherty has been instructed to start action at once if evidence justifying prosecution is developed. In the meantime, Daugherty said, he will "no matter who the person is."

"That's all that can be done now," he said, "to observe the evidence brought out at the hearing and proceed in the future."

He also said that the White House "has no objection" to the disclosure of the evidence, and that the government will take the action required.

In asserting this position it was made clear that the President wanted to understand that the administration was not being misled by any opinion as to the investigation.

In the conferences held each Saturday each supervisor makes a report on the schools attended during the week. The reports are filed in the county superintendent's office and are dealing with unsatisfactory situations and special problems are agreed on. Duplications of the supervisors' reports to teachers are filed in the county superintendent's office. The supervisor confers with him in working out the problems of supervision and administration.

**THE ONE AMERICAN
SCHOOL**
The Hope of Liberty and Trained Citizenship—The Treasure House of Ideals
BY ARNOLD GEBBE

Under the direction of H. E. Hall, a new plan of supervision is being worked out in Wood county. By this new plan, each supervisor is assigned to a special phase of the school work throughout the county, instead of to all of the school work in a certain portion of the county.

In Wood county, the first four grades are placed in the charge of one supervisor, while the last four grades are placed, similarly, in the charge of another well-qualified supervisor. A third assistant supervisor is assigned to the supervision of the high school work in the county. By this method specialists are employed and the division of the work makes the efficiency of supervision greater by 20 to 30 per cent, it is said.

Help for the Rural Schools
In the one-room schools the primary supervisor deals specifically with problems of the first four grades with the rural supervisor. In the two-room schools the primary supervisor deals with the first four grades and the rural supervisor deals with the last four grades. The upper grades supervisor deals specifically with problems of the upper grades and the rural supervisor deals with the last four grades. The upper grades supervisor deals specifically with problems of the upper grades and the rural supervisor deals with the last four grades.

Summarizing
The primary function of the supervisor is to increase the efficiency of teaching and make instruction the greatest possible return to the children and the community. Effectiveness demands a supervisor who works so well that she is able to sense the difficulties and needs of the teacher at the very beginning of the year and is able to make adjustments and make every session and every recitation helpful in the highest degree to every pupil.

The departmental plan makes it possible to divide the work, narrow the field of supervision, and obtain the best results. Under the departmental plan the supervisor is an efficient supervisor few teachers become discouraged and fail. **SHERBURNE FACES
\$10,000 DAMAGE SUIT**
Case Grows Out of Liquor Raid on Home of Patrick Rodgers at Newark

NEWARK, O. Jan. 28.—A suit for \$10,000 damages, growing out of a liquor raid on his home about nine months ago, has been filed by Patrick Rodgers against Neil Sherburne, former city director.

It is alleged that Sherburne was responsible for the raiding of the home of Rodgers and the destruction of a large quantity of wine conducted by the raiders. Rodgers was arrested immediately after the raid and was found guilty of illegal sale of liquor by Judge D. F. McDonald, state prohibition commissioner.

Sherburne was removed by Mayor W. H. N. Stevens as one of his first official acts after assuming office as mayor, and Charles Hager, appointed successor, also was suspended. The retiring administration of Sherburne began his term, also was suspended. Later the mayor withdrew charges which he had filed against Hager and appointed him to the rank of captain.

Regarding these outside activities. The supervisors attend as many of the public affairs as their duties permit.

Under this plan the teachers hold group meetings in which problems of immediate concern to the teachers are considered, achievements of the best teachers and school systems are discussed, and in which professional studies are carried on.

BURTONE

The New Lower Bowel
Method of Treating
Chronic Constipation

Suggested by Dr. McCollum of Johns Hopkins University

Nothing That You Can Do

No medicine will more effectively remedy this dangerous condition than the use of BURTONE.

The most scientifically compounded treatment known for the relief of chronic constipation of the lower bowels.

In Burtone You Have

A complete effective heart stimulant, nerve tonic, digestant, hepatic and lower bowel tonic, and a most complete conditioning of drugs into one medicinal coated tablet over known to medical circles. BURTONE is the only medicine up-to-date that acts on the stomach, liver and kidney congestions by its action on the lower bowels. Never has so much relief been packed in one 25c box of medicine or 4 boxes postpaid for \$1.00.

The Lower Bowel Treatment for
Chronic Constipation

BURTONE

This Eminent Doctor Says

"That headaches, indigestion, biliousness, dull groggy feelings, sour, bitter, belching, bloating of the stomach, coated tongue, congested kidneys, hurting behind the shoulder blades, and lumbago pains are not due to torpid liver as commonly supposed, but to chronic constipation of the lower bowels."

All From the One Cause

This being true—why dose yourself with the "old style" liver pills, oils, laxative syrups, salts, headache tablets, etc., when at most they can only offer temporary relief. Why patch up your health? Why not follow Dr. McCollum's theory? Get at the seat of trouble in the lower bowel. You will find relief in a 25c box of BURTONE.

ings before the Senate's special investigating committee. He has ordered the department of justice to search for any evidence of wrongdoing, and Attorney-General Daugherty has been instructed to start a prosecution of any person is proven to have been in the possession of the law would be prosecuted, "no matter who the person is."

"That's all that can be done now out at the hearing and proceed in accordance with law," said the White House spokesman, "and the evidence of wrongdoing, then the department will take the action required."

In asserting this position it was made clear that the President wanted it understood that the administration was not making any accusations or dealing with any persons on any opinion as to the investigation.

Supervisors' Conference
In the conference held each Saturday each supervisor makes a report on the schools visited during the week, and the conference is held for the purpose of dealing with unsatisfactory situations and special problems are agreed on. Duplicate of the supervisor's reports to teachers are filed in the county superintendent's office.

Benefits of Plan
The county superintendent can keep in closer touch with all the work in the county under this plan. The county superintendent is able to keep the supervisors in touch with the newer educational movements and help her evaluate or adopt them.

The teacher who needs either instruction or a new start has a better chance under this plan. The county superintendent is better prepared to demonstrate principles and methods and make it possible for the teacher to improve rapidly. The teacher gives the efficient supervision on secular subjects.

Development of Teachers
Under the departmental plan the teacher develops rapidly, becomes less and less dependent on the supervisor, and acquires what supervisory ability for self-supervision.

In each district not maintaining a first grade high school a teacher or principal is designated as "principal teacher" and is given the same status as a teacher in a first grade high school. This teacher is given the same status as a teacher in a first grade high school. This teacher is given the same status as a teacher in a first grade high school.

grow heavier each year—to take care of the insane of Europe foolishly ban America by lax immigration laws.

New York's idea to have the government stand this tremendous cost does not solve the problem—it merely gives it a new angle. There is only one thing that can be done to relieve the taxpayers of this burden, and that is to stop the riff-raff of Europe, the diseased, mentally and morally unfit, coming into America to contaminate the posterity of our forefathers.

If plans mature, New York will ask the government for \$17,000,000—expend on insane aliens over a comparatively short period. Just as in many; other things, money is the least thing to be considered. In this world war the world poured billions of dollars into a stream of fire and blood, but these dollars counted naught when compared with the lives smothered in the avalanche of steel and volcano of high explosives that left a never-ending trail of desolated homes and suffering incomprehensible to the human mind.

In the case of immigrant insane, the human mind first thinks of dollars; this is only natural in view of the heavy taxes, taxes such as Americans never before knew. And taxes such as the European has struggled under for centuries; these same Europeans who would now come to America and in buying the taxes on the shoulders of American citizens. However, money is not the chief subject to take into consideration. If 25 per cent of those persons in insane asylums in New York are aliens, it only stands to reason that the very worst class in Europe is coming to America to live in the United States. What will their posterity be? Mental defectives, leaving in their train persons of low morals, feeble minds and low mentalities; more inmates to fill our institutions for the children of the present generation to provide money with which to build prisons, jails, institutions for the feeble-minded and insane asylums.

No one denies that America's morals are not of the exceedingly high standard which they enjoyed a decade ago. Does this situation not throw a certain amount of light on the conditions? Within the last week it was stated in Indianapolis newspapers that officials had pointed out the astoundingly high percentage of foreigners among those who were arrested each month for bottlegging. Close observation of newspaper reporters shows this to be throughout the country. One following the newspaper reports of gunboat battles in New York and Chicago and other large cities will find the names shown therein to substantiate the argument that foreigners are responsible for an appalling percentage of crime in America.

New York's situation, in which she is battling to take care of insane immigrants, at the cost of millions of dollars each year, presents the condition into which America has fallen in her continued lax immigration laws. The government reimbursing the different states for the care of insane aliens would be patetically ludicrous. What differs it, if the American has to pay this enormous amount each, whether he pays it to one tax collector or another? In many of our American cities, American children living in the vast number of homes under "American" standards, attend school where the vast majority of children have almost unpronounceable names and who come from homes where morals are thought of lightly and where the lowest European standards are in effect. Does one believe that these few American children can act as a "melting pot" for this great majority of children whose parents were born in Europe, with its deeply instilled superstitions, monarchial beliefs and lack of education.

It was brought out in the Chicago Tribune of recent date that a society formed among the members of one of the largest Catholic churches in Chicago urged the children of the congregation to grow up to be "good Polish effigies." Can one conceive of this in America? He can when he stops to ponder over the New York situation and the fact that America is permitting European countries to dump their unfit into America life. If this latter is permitted, it is only natural that no steps would be taken to stop such moves as "rearing good Polish citizens in America."

One of the most vital, if not the most vital problem that confronts America today is that of immigration.

Senate—Met at noon; adjourned at 4:30 p. m.

Senator King, Utah, who visited Russia last summer, began an address setting forth his observations regarding the situation in the soviet government of Russia.

Senator Robinson, Arkansas, in a speech declared it to be the sense of the Senate that proceedings before the tariff commission in the present emergency will not command public confidence and that they should proceed under a rule which would preclude any member whose ineffectual family has a property or financial interest to be affected by the decisions of the commission.

Received from the Department in support of Secretary Hiram's statement that the Russian soviet authorities have been conducting propaganda in this country against the American government.

House—Met at noon; adjourned at 6:05 p. m.

In further consideration of the Interior department appropriation bill, the Immigration Commission submitted to the immigration committee a resolution urging the suspension of all immigration for five years.

Indications were given at the White House to members of the ways and means committee that President Coolidge would regard any surtax above 25 per cent as a change in principle of the Mellon plan of a tax reduction plan as a basis for a veto.

President Coolidge gave his unqualified approval to the North Carolina business bill for government Indians, northwestern farmers for purchasing land, and to enable them to diversify their farming.

Wednesday, January 23

Senate—Met at noon; adjourned at 5:50 p. m.

Senator Cawley, Arkansas called up his motion to discharge the publisher of lands committee from further consideration of his resolution to discontinue the operation of the Teapot Dome naval oil reserve.

Cawley renewed his attack on Secretary Taft and declared Congress should impeach Secretary of the Navy Donahy, who approved the release of the Navy Department's stockpile of munitions.

Joined Cawley in his attack on Secretary Taft.

Senator Walsh, Montana, a member of the investigating committee, gave notice that he would ask that body to report a resolution advising the president to institute proceedings against the Wyoming amount of the lease of the Wyoming coal mine to the Sinclair interests.

President Coolidge transmitted to Congress a message recommending the Federal relief of the agricultural situation in the United States.

The senate committee included a national agency to enable wheat growers to diversify their farming; extension of the time within which the war time finance corporation can make loans;

Thursday, January 23

Senate—Met at noon, adjourned at 4:44. The committee on public lands was discharged from further consideration of the Bureau resolution ordering the cancellation of the Teapot Dome naval oil reserve leases, the committee being placed on the calendar and further action deferred until next week.

Senator Capper, Kansas, chairman of the farm bill, addressed the Senate on freight rates, urging substitution in transportation legislation of the tariff-making clause of the repeal of the rate-making clause of the transportation act.

Senator Jones, New Mexico, spoke in opposition to the proposed reduction of surtaxes in the Mellon plan.

After a joint congressional resolution for a joint congressional session on Wednesday, February 27, as a memorial service to President Harding, Secretary Hughes is to speak, and former Presidents Taft and Wilson, the supreme court, President Marshall, the diplomatic corps, members of the cabinet, governors of states and other dignitaries will be invited to attend.

President Coolidge transmitted to Congress the ship liberty treaty with Great Britain.

Passed a bill authorizing an emergency distribution of \$100 each to the 12,000 members of the Chipewake tribe in Minnesota, the statement being made that this was necessary to enable them to buy food.

E. L. Doherty, the California oil magnate, told the oil investigating committee that on November 30, 1921, he had loaned former Secretary Fall the sum of \$100,000 in cash as a bribe to get the oil.

John McNabb, attorney for the Goetz interests, asked the committee to request the president to designate a board of experts to examine all the facts, stating that if such a board should report that at the time the oil was sold to the Goetz interests they were not advantageously treated, the government could have obtained \$1,000,000 to reimburse him for his interest to the government for just what he had put into it.

Senator McNabb announced that Governor Sevier of Utah had been in Washington but that his physical condition was such that he could not appear before the committee until next Monday, when the chairman stated that he would be heard.

• • •

House—Met at noon; adjourned at 4:05 p. m.

Continued consideration of the Hiram Bingham appropriation bill.

Representative Clegg introduced and defended the Mellon tax plan, emphasizing the fact that taxation at excessive rates is always unproductive.

Mr. Capper, of Texas, ranking member of the committee, declared that the House sent the "Democratic plan" to the president "he wouldn't be vetoed, because it reduces taxes and the country wants lower taxes."

Chairman Green replied to Mr. Capper with the declaration that the oil bill ought to be considered in a nonpartisan manner, but added that it won't be because the gentleman from Texas imagines he can make political capital out of it.

Friday, January 25

Senate—Not in session; most of the members listening in on Teapot Dome investigating committee.

Mr. J. W. Zevely, personal attorney of Harry Sheridan, told the Teapot Dome investigating committee that Sheridan had organized \$25,000 in liberty bonds to aid former Secretary Albert B. Fall, in the

It can be corrected to a large extent by the simple process of passing out the Kelly bill. H. R. 4123, which is the bill now pending in the Senate, is designed to raise the sale of the bill to a point which will give regular workers in the postal service a reasonable income, and thereby attract the reliable men to the work. The bill is a very small bill, ranging from \$2,000 to \$2,500. There is nothing exorbitant about such a demand. Such pay will more than justify itself in the improvement of service and in the increased efficiency of the business which it will make possible.

Incidentally, it is nothing more than justice to the loyal postoffice workers who were denied such a raise four years ago on the ground that the postal saving expenses were coming down.

Crusade Started Against Auto Petting Parties

EAST LIVERPOOL, O., Jan. 26.—The crusade against petting parties, recently was started by the local police department in this city, with the following results: In a recent roundup, conducted by a constable, eight men were arrested in company with girls whose ages ranged from fifteen to nineteen years. Charges of parking on the sidewalk and against six of the men and it is charged that the charges of contributing to delinquency also will be pressed in some of the cases. None of the girls was held, but police say they may be prosecuted as witnesses. Each of the men pleaded guilty to the charge of parking without license and was fined \$5 and costs. The crusade will be continued.

June, 1923, three months after he retired from the cabinet. Witness testified that Fall gave his note for this loan, which was in addition to \$10,000 expense money in connection with his trip to Russia.

House.—Met at noon; adjourned at 10:30.

Continued consideration of the interdepartment bill.

Representative Royal C. Johnson, of Minnesota, introduced a bill for the month Dakota, was designated as chairman of the new veterans' committee. He said that he served overseas in the 70th division.

The public buildings committee ordered a favorable report on the Langley bill, carrying \$6,500,000 to provide additional hospital facilities for world war veterans.

Y. M. C. A. committee was added to remove the following "nuisance" taxes: Telegraph and telephone, beverages, amusements up to 50 cents, theater seating tax, candy, chewing, bowie and dirk knives, live animals, yachting and hunting gear, traps and traps, trunks, valises, purses and pocketbooks, portable lifting machines, fans, jewelry, produce sales and 60 per cent on bowling and billiards, which now yield a revenue of \$100,000.

Representative Hull, of Iowa, made demand at the meeting of the military affairs committee that Henry Ford be summoned to Washington to discuss his offer for the Muscle Shoals project.

Saturday, January 26

Senate.—Met in session. Most of the day was spent in committee work.

House.—Continued consideration of a floor department bill.

Those familiar with the situation assert that the same situation obtains throughout the country in like proportions in regard to the number of insane and defective aliens. In view of the ever increasing number of insanity cases and like complaints from other parts of the United States, the assertions appear to be

Mr. Van Benschoten's report, in part, follows:

On June 30, 1933, there were on the island 1,302 patients, of whom the insane 41,302 patients, of whom 0,440 were aliens. Thus over 25 per cent of the total population of the island are insane. The population of the state hospitals are aliens. But the percentage of aliens has been decreasing and has been as high as 23 per cent.

The population of the state of New York by the census of 1930 was 12,488,227. The census shows that 1,248,227 were insane. Given as unknown, 23,486 were given as unknown, one of whom may have been aliens.

New York Pays Enormous Toll

On October 29, 1922, Dr. Horatio C. Pollock, statistician of the state hospital commission, stated that it cost the state of New York for the fiscal year of 1922 (ending June 30, 1922) \$4,057,423 to care for insane aliens in its state hospitals, and for

"At this same conference Dr. C. Lloyd Hawland, chairman of the New York State Hospital Commission, said that it was costing New York state \$4,500,000 annually for the care and maintenance of alien insane.

The state architect estimates the present value of the state hospitals and equipment as representing a replacement value above \$290,000,000. While the precise application of the figures provided by the \$50,000,000 bond issue voted at the last election has not been determined, it is estimated by those familiar with the

On the failure of the federal government to pay for deportable aliens arrested by this state, Mr. Van Benschoten says:

"The data, especially prior to 1912, were far from complete, but there were secured individual schedules for 31,861 patients showing unpaid balances due the state of New York from the United States from 1882 to August 1, 1921, aggregating \$15,247,167.1."

Klansmen Hold Last

Rites at Cemetery

ADRIAN, Mich., Jan. 24. — In weather with the thermometer registering several degrees below zero, the funeral of Frank Kiersey was held here last week, and many persons were surprised to learn for the first time that Mr. Kiersey had been a member of the Ku Klux Klan. Klansmen in full regalia held the last rites over his grave.

TELLS OF QUARREL IN THE GOULD FAMILY

Helen Shepard Says Her Brothers Sold Stock of Estate Without Her Knowledge

NEW YORK, Jan. 26. Testimony for the second consecutive day at a referee's investigation of the accounting filed by trustees of Jay Gould's \$15,000,000 estate, Mrs. Frances Gould, today revealed that her brother, John Gould, had sold the estate's stock of Western Union stock to the American Telephone and Telegraph company in 1924 and 125,000 shares of the Western Union railroad stock in 1922 and 1924.

The witness said each of these sales was made without her knowledge, although she was one of four trustees of the estate and had been provided for her share of the proceeds by Mrs. Shepard. She said that for months after the Western Union stock was sold, the trustees' quarterly reports continued to indicate it remained the property of the Jay Gould estate.

She said she did not learn of the sale until she saw a notice in the Western Union stock she had placed on the grave by the Women of the Klan.
