Has Had Enough of Germany

In Washington, the government officials have had enough of Germany. The German government has been accused of interfering in the internal affairs of other countries, and this has caused a great deal of concern among the American people.

Washington's officers, and a particu- larly Secretary of State, have begun to show how much they have had enough of Germany. Thousands of people have been marching in the streets, demonstrating against Germany, and many have been carrying signs that read, “We want peace! We want peace!”

The Secret of Earning Big Money

Earning big money isn't a question of how long you work each day, or of how hard you work. It's what you do that counts. As long as you work for someone else, you are almost sure to be limited to a small weekly salary. You may earn a fair living. You may even save a little. But the chances are that you'll never make big money.

Take J. R. Head, for

The Enemy Pays a Compliment

Possibly the last place on earth that one would expect to find a compliment to the K i n K i n n could be at a meeting of the American Council of Christian Churches, which was held in Dayton, Ohio, on April 10th. The meeting, which was attended by about 1,000 people, included representatives from many different denominations and organizations, and the purpose of the meeting was to discuss the problems facing the nation at that time, including the Korean War.

Despite the serious nature of the discussions, there was a sense of optimism and hope that emerged from the meeting. This was evident in the comments made by one of the speakers, who stated that the K i n K i n n had made a significant contribution to the cause of peace and understanding.

The speaker went on to say that the K i n K i n n had demonstrated a willingness to work together with others, both inside and outside the organization, to achieve common goals. He praised the organization for its commitment to promoting understanding and cooperation among people of different backgrounds and beliefs.

The speaker also expressed his appreciation for the work that the K i n K i n n had done in the past, and he looked forward to seeing what the organization would be able to accomplish in the future.

Ethical Conduct

The meeting concluded with a discussion of ethical conduct and the importance of integrity in all aspects of life. The speakers emphasized the need for individuals and organizations to be honest and just in their dealings with others, and they called on everyone to strive for excellence in their personal and professional lives.

In conclusion, the meeting was a testament to the power of collaboration and the importance of working together towards a common goal. The K i n K i n n had shown that by working together, we can achieve great things, and it is hoped that this meeting will be the beginning of many more successful collaborations.

Newport Police Take to Record at Auto—Busy Detective Reprisal

NEWTOWN, Ky., March 25—Mere days after FBI agents discovered the site of a planned Ku Klux Klan meeting, a small town has been thrown into chaos. According to local reports, a large group of police officers, including FBI agents, have descended on the town, leading to widespread panic among residents.

Mary and John report that they have been warned not to speak about their activities to anyone. However, they believe that the FBI is monitoring their every move. The couple has been living in a small apartment for the past few weeks, trying to avoid detection.

The FBI agents have been seen entering and leaving the apartment multiple times. Mary and John fear that they are being watched and that their lives are in danger. They plan to move to a new location as soon as possible.

Mary: "We are being followed everywhere we go. The FBI agents are everywhere, and we are afraid of what they might do to us." "They have warned us not to speak about our activities to anyone," John adds.

Mary and John are not sure if they will be able to escape the agents. They are considering seeking refuge in another country, but they are not sure if they will be able to find a safe haven.

They have already burned all their evidence and have attempted to destroy as much as possible. They hope that they will be able to escape before the agents find them.

In the meantime, the couple is trying to stay calm and avoid attracting attention. They are relying on each other for support and are trying to stay as hidden as possible.

The FBI has not yet commented on the situation, but it is clear that the agents are taking the case very seriously. The couple is not sure if they will be able to escape the agents, but they are determined to do so if possible.

**Pennsylvania Gas Wells Pay Big Money**

The results of a survey made public by the United States Geological Survey, enumerate all 1,762,000 acres of natural gas producing counties in Pennsylvania. James P. Wellman, secretary of the Internal Affairs of the Commonwealth, for the year 1892, shows that 13,724 wells were producing gas from 16,130,000 acres of land. This industry represented a capital cost of $32,000,000 and employed 1,750 persons, who earned $7,065,000 during the year.

Sales of natural gas exceeded $250,000,000, and the coal gas produced was valued at $3,000,000. The largest increase in the use of fuel was made in manufacturing plants, where sales were 21 per cent.

Domestic consumption paid slightly more than 20 cents per 1,000 cubic feet. Industrial and manufacturing concerns in this state increased their consumption over 20 per cent, and for public use the cost was 44.4 cents. The average cost was slightly in excess of 29 cents.

SALES

Adifferent kind of agitator has been
employed in the 1811 edition of THE FIERY CROSS, a newspaper which pub-
lished for some 10 years in Indiana. The styles are just as hungry as ever to
attract the attention of the readers, and they have come up with a new
idea. They have decided to sell their papers on the streets, in the same
way that newspapers have been sold in the past. This will allow them to
reach more people and increase their circulation. With this new strategy,
they aim to attract a wider audience and continue their mission of
informing and educating the public.

Price of the Paper

The cost of the paper will be $0.05 for 10 copies, $0.10 for 20 copies,
and $0.20 for 30 copies. This pricing is intended to make the paper
affordable for everyone and encourage more people to purchase it.

Distribution

The paper will be distributed in various locations throughout the
community, including parks, schools, and community centers. This will
ensure that there is a wide availability of the paper and that it can be
easily accessed by all readers.

Conclusion

The decision to sell The Fiery Cross on the streets is a creative
approach to reaching a larger audience. It demonstrates the newspaper's
commitment to staying relevant and addressing the needs of the
community. With this strategy, The Fiery Cross hopes to attract more
readers and continue its mission of informing and educating the public.

WOOD, Ind., March 12—The Women of the Klan are becoming more active by the day. One of their most enthusiastic and large attendance meetings featured the week's activities. The women now have a goal of obtaining a half of all the memberships in the state. Many wish to attend these meetings to show their support for the Klan and to fight so rapidly that the headquarters have had to call in extra personnel. The last week was a bust, but the members have rallied and the meetings have continued. The women are still holding the momentum to bring in more members.

Citizens demand Frankfort cleanup

REAL TEXT: "Citizens demand Frankfort cleanup."

Gambling and bootlegging about as wide open as it is possible, taxpayers say.

FRANKFORT. March 23. From all indications, it seems that a good housekeeping political and efficient administration are in store for Frankfort this year. The reports are that a state budget has been drawn up and submitted to the legislature. It is freely charged that the budget is in keeping with the needs of the state and that it will be acted upon at the earliest possible date. The report also states that the state police force is being increased and that a state prison will be established. It is generally agreed that this is the best move that could be made to clean up the state and that it will be successful.

Residents of Frankfort have been noting with satisfaction the increased law enforcement in the city. The local police force has been increased and is doing a good job. The state police are also doing a fine job in keeping the peace. It is said that the city is more orderly than it has been in many years. The residents of Frankfort are confident that the state government is making every effort to improve the city and that it will be a better place to live in the future.
WINCHESTER HEARS IMMIGRATION TALK

WINCHESTER, Ind., March 24.—Winchester, Ind., Xtra No. 41, had the honor of being addressed by an officer of Greenville, Ohio, Xtra No. 45, Wednesday evening. He gave an interesting and instructive talk on the immigration question, arousing all Xtravers to action and the Johnson restricted immigration bill before Congress.

Committee work was also given by the degree team, followed by the lecture in connection with the ceremony.

Women Plan County Meeting; Morocco Juniors Are Active

MOROCCO, Ind., March 22.—The Women of the Ku Klux Klan of Morocco township hold a meeting in the Klansman Monday night with an enthusiastic and large crowd present. Numerous plans were discussed and an attempt will be made to obtain a meeting place in Morocco with a view to holding regular meetings. The committee was appointed to take charge of the possibility of getting a speaker, well informed on the work of the Ku Klux Klan to aid in a county meeting of the women in the near future. A junior organization of the Knights of the Ku Klux Klan has recently been organized in Morocco with a number of real American boys for charter members.

AN ORIGINAL KLANSMAN

JERSEYVILLE, Ill., March 20.—One of the oldest, if not the oldest, Klansman in Clark county died last Friday and was buried Monday. He was 30 years old. His family didn’t know that he was a member of the Klan and they were not in favor of a Klan funeral. However, members of the Klan were present in large numbers. The church was crowded and people were standing around the altar. There was one member of the original Klansman organization in the group. There is one member of the original Klan organization in the county.

ON THE MAP AT SHOALS

SHOALS, Ind., March 22.—The Morton county Ku Klans is getting “on the map.” Recently a delegation of Klansman attended services at the Church of Christ here, and a substantial contribution to the altar was made. It was much appreciated by the congregation. It is a young church and has been in existence for about a year, but its expansion is creating the building.

KLANSMEN IN CHARGE

ROCKPORT, Ind., March 21.—The local Klansmen of the Ku Klux Klan have been given the oversight of George Tabor’s store here at Gillis by the Grand Division of Indiana. The Klansmen are also in charge of the Grand Lodge and the Grand Division of Indiana. The Klansmen are very active in the community and are working hard to improve it.
