Dr. McCulloch Tells Defi

Window Smashers Again In Action

Klansmen of Indiana

Since outstanding leaders in the Democratic party have declared themselves for an anti-Klan program and unscrupulous members of that party are attempting to wreck the Klan with a forlorn and desperate candidate for Congress, D. C. Stephenson, who now is flinging charges far and wide, has become a member of theCtlion. He is bold and fast and not to be swayed by the combined attack from “the inside” as well as the outside.

With the sweeping defeat of all “anti-Klan” candidates at the recent primaries, D. C. Stephenson became a Democratic candidate, but now joined with those forces that would tear down the Klan organization.

Klansmen! Your organization is now being attacked as never before. The Klan has always been attacked from the outside, but now, Rome, that implacable enemy, has succeeded in securing from within, a tool which is now bent on rending asunder your organization. The fight has started; aided by every ingenuously known and concocted by the common enemy of true Americanism a campaign has been inaugurated to kill the Klan organization. Do not be fooled in the camouflaged objective placed before you. The objective of those behind the move is to kill the organization.

The blow has been struck at a time when the Klan in Indiana is flourishing as never before. Stick to your guns and do not let anyone serve your cause, regardless of what insidious propaganda may be fed to you. Remember the move is to kill the Klan. Magazines, newspapers, telegrams, circulars and every possible attempt to undermine the organization are being used as vehicles for charges that in some instances are so ridiculous as to seem to come from the brain of a school boy.

The campaign of destruction main- ted out by D. C. Stephenson, a sus- pended Klansman, who must face trial to show cause why he should not be expelled, is based on a pro- gram of hate, a program that, if successful, would bring again to Indiana a population whose face was wiped out by the civil war. Rome, however, has not for the welfare of America and the state. It is proposed that the end is accomplished. Her position, gifted with a financial endowment, has been a cause of the French lawyers. Crafty this cunning scheme that hate will destroy any one who does not believe it. Rome should know that should be enough to stop the plans of blackmail and to many seems to be bordering on a state of hysteria.

Klansmen, the supreme test is here to show your Klavern against outrages of hate and destruction. Remember you are united in a common cause, with millions of others and without cause. Carry this message with pride and with your children. Don't be fooled by what may be done in the past to hold your organization. Read this and a base attempt to do your. Remember that past performances are sometimes misleading.

Rome has learned from experience that the man who builds is usually the man who can most easily destroy. A plot that shows that while he is unprepared.

The Journal.
The invitation accepted. It was one year ago Mayor Samuel Louis Shank of Indianapolis, suddenly jumped with both feet upon the Khan. Since that time he has used much energy at the real interest of the public welfare without the claim that the Klan that members were great in Indiana and repeatedly announced that he would fire all the Klansmen on the chance.

Last winter, Mr. Shank announced his candidacy for nomination for governor of Indiana on an anti-Klan platform and entered the Land of Indian politics. He mentioned Mr. Shank's name at the time that Mr. Shank's policies were accepted in the form of a vote. In the end of the month, Mr. Shank's statements were not substantiated by the people, and the candidates who received the votes were not selected.

Mr. Shank said, immediately after the primaries: "There are just too many Kluxers for me, that's all. By golly, you have some more on your platform."

It took more than a year to convince Mr. Shank of the fact that he has not changed, but that he has become more and more so. Not only has Mr. Shank changed his mind, but Mayor George B. Durgin, "saint Klan" candidate on the Democratic ticket, who ran such a poor second that approximately 4,000 votes separated him from the leader, Mayor David E. Chubbuck, "anti-Klan" candidate on the Republican ticket, was so badly beaten that his candidacy turned out a ghostly joke. It yet remains, however, for the affairs of the next election to be decided by the votes of the combined vote of all the opponents. Mrs. Shank, conclusively, all that which might have been made by Klansmen as to numerical strength, were decided.

Mr. Shank said immediately after the primaries: "There are just too many Kluxers for me, that's all. By golly, you have some more on your platform."

Another Excellent Lesson

Paul and the Synagogue of the Parthenon was to use its influence in America to the end that Greek Americans may be
naturalized in the United States. The Synagogue of the Parthenon was established in 1929 by the Greek American National Council and was intended to be a center for Greek American culture and education.

Without fully appreciating the significance of the Synagogue's work, we cannot properly understand the character of the Greek American who is an American by birth and education. He is the product of a long and continuous process of adaptation and acculturation that has taken place in the United States. His sense of identity is closely linked to his Greek heritage, but it is also strongly influenced by his experience as an American.

The Greek American, like any other American, is a citizen of the United States. He is entitled to all the rights and privileges that are enjoyed by all Americans, and he is subject to all the laws and regulations that apply to all Americans. His identity as a Greek American is an important part of his identity as an American, but it is not the only part. He is an American first, and a Greek American second.

content to be what they are, and they are not ashamed to be Greek
Americans.

If you want to know just how the immigration bill is affecting your friends in the United States, you will find that the bill will have a part in the depletion of the alien labor force.

WASHINGTON, D.C., May 10.—

The United States immigration bill, which has been passed by both houses of Congress, and which is now before the President, will have an immediate and far-reaching effect on the labor situation in the United States. The bill will limit the number of aliens who can enter the country, and it will also require that all aliens who enter the country must have a visa from the President of the United States. The bill will also provide for the deportation of aliens who are in the country illegally, and it will make it easier for the Department of Labor to enforce the immigration laws.

SAMSON AND DELILAH

An Editorial by Wingfoot as It Appeared in The Fire Cross, Cross of May 25, 1923, and Reprinted Here by Request

Those who are familiar with the Bible readily recall the story of Samson and Delilah. Samson lay in his hair and tresses, and Delilah, who had an interest in his strength, began to fell in to him and his strength went, and he was taken and brought to Gaza. Although this parable was written thousands of years ago, it still holds a lesson for us today, as in the case of Samson and Delilah, that sin can destroy a life.

To quote a modern-day Herald writer: "There are enemies of the public schools that are going on the charge and are seeking control because they believe that the public schools are not doing enough to promote the interest of America."

The author goes on to say: "It is true that the public schools are facing many difficult problems, but they are problems that can be solved. The public schools are not the only institutions in America that need help. All institutions need help if they are to succeed."

No truer words were ever written than those quoted above. It is true that the public schools are facing many difficult problems, but they are problems that can be solved. The public schools are not the only institutions in America that need help. All institutions need help if they are to succeed.

If Samson had not fallen for Delilah, he would have remained strong and would have continued to lead the Israelites. As it was, he was taken and brought to Gaza, where he was captured and blinded. The story of Samson and Delilah is a reminder to us all of the dangers of sin and the importance of staying away from those who may lead us astray.
