WASHINGTON, April 24—The Protestant American, and its sister paper, The Protestant American, has been publishing articles about the situation in the country where the motion picture industry is operating. The situation is one where the motion picture people of the country have been putting out stories about the activities of the Protestant Americans and the Catholic organizations. The situation is one where the Protestant Americans are getting together and working together on this situation in a united way. And it is about time, for it seems that the producers of these films have gone on to produce these films in such a way that it is very difficult for people to watch these films. So the Protestant Americans have been trying to protest against these films and they have been successful in getting the films to be pulled out of circulation.

There has come, apparently, to the attention of this Monitor, a feeling more clearly than it has been expressed by the civic leaders of the country, that a new direction is being taken in the administration of the law, not only by the courts, but also by the legislators. The feeling is that the law is not being administered in the way it was intended to be administered. An actor who would prefer to be a Kansan instead of a movie star, because Rome would see that he had to be, would have to learn the art of getting on the Roman Catholic church. Monopoly Traps Operating Under Guise of Marketing Association to Fleece Farmers

Jew Promoters Are Spending Millions of the Producers' Money in Exploitation—High-Salaried Officers Who Know Nothing of Farming Are Tying Up the Land
Owner in Crooked Contracts

(By Robert Moran in the Desert of the
A word of warning to the American farmers. The time is ripe for you to be on your guard against the maneuvers of the promoters of the monopoly. They are using the form of a marketing association to fleece you of your money. These promoters are high-salaried officers who know nothing of farming. They are tying up the land owner in crooked contracts.

Their modus operandi is this: They get a group of farmers to sign a contract, under which each farmer agrees to sell his land to the association for a certain price. Then, when the contract is signed, the association demands a large sum of money as a down payment, and this money is never returned to the farmer. The association then sells the land at a much higher price and keep the difference for themselves.

This is a form of fraud, and the farmers who have been taken in by these promoters should not only demand their money back, but also take action against the association. The government should also investigate these associations and take steps to prevent them from exploiting the farmers in this manner.
Salesmen are now working for progressive Indiana and Indian women, and Indiana newspapers. They have the buying agents in Indiana, the executive in the factory, the office, and the store to the housewife in the home.

Add this mighty force to your sales organization by placing your advertisement in the 60,000 copies of the Indiana edition of THE FIERY CROSS.

THE buyers of Indianapolis and Indiana are just as anxious to start business with you as you are to do business with them. Your advertisement in THE FIERY CROSS makes it possible for these buyers to find you when they need your merchandise or service.
