MISTERY SURROUNDS DEATH OF KLANSMAN

George Hudow of Tippah County, Mississippi, was Shot in Head

(Special to The Florcy County News)

KIRKLAND, Ky., Aug. 29.-The body of George Hudow, a member of the Ku Klux Klan, was found shot in the head in his home in Kirkland, Ky., early today. The cause of death is believed to be self-defense.

The crime occurred in the early hours of the morning when a group of Klansmen were seen entering Hudow's home. When they entered, they were met by a heavy fire from inside the house. The fire was so intense that it forced the Klansmen to retreat. They were unable to escape and were killed in the ensuing firefight.

The Ku Klux Klan has been under investigation by the FBI for its involvement in a series of bombings and shootings. The group is believed to be linked to the murder of several African Americans in the South. The investigation has been ongoing for several months and has led to the arrest of several high-ranking members of the organization.

The death of Hudow has caused outrage in the community and has led to increased calls for law enforcement to crack down on the Klan's activities.

PROFITS TURNED OVER TO CHARITY WORK

(Special to The Florcy County News)

KIRKLAND, Ky., Aug. 29.-The profits from the recent Ku Klux Klan rally held in Kirkland, Ky., have been turned over to a local charity. The money will be used to help fund a new community center.

The rally, which was held last weekend, attracted thousands of Klansmen from across the country. It was the largest Klan rally in the region in recent memory.

The profits from the event were estimated to be in the millions of dollars. The money was turned over to the local charity by the Klan's regional leader, who said it was a gesture of goodwill.

The community center, which is currently under construction, will provide a safe and welcoming space for the community. It will offer a variety of services, including a gym, a library, and a community kitchen.

The Klan's donation was met with mixed reactions. Some community members praised the organization for its generosity, while others condemned it for its racist and violent activities.

The Klan has been under fire for its role in bombings and shootings in the South. Many have called for its eradication.

EMPHASIS FROM THE FIERY CROSS

"Sparks from the Fiery Cross"

American-Supremacy

There is no hope for the Klamath, warns Dr. John E. Hoyt, as they struggle to maintain their heritage in the face of the United States' advances. The Klamath people have been subject to the United States' policies for many years, and their struggle to maintain their culture and way of life is becoming more difficult each day.

"The other day one of those liberal newspapers in the country published an open letter to the Klamath people, saying, 'Give us your children, give us your land, and we'll be good to you.' But that's not the way it works. We don't want your children, we don't want your land. We want your freedom.'"

The Klamath people have been subjected to the same fate as the American Indians, expecting the mistreatment by the government.

"A man can't live by a handout. The government, by giving these people a 'handout', is only creating more dependency. We must educate these people so they can help themselves.""
