This section provides access by subject and corporate entry to the publications or groups of publications listed by popular name in the body of this work. Subject descriptors, which are shown in roman type, do not in all cases correspond to subject headings on Library of Congress printed cards or to other official LC subject headings but rather to key words of the reports. The italicized corporate entries are in some cases inverted to give additional subject access, e.g., "Budget Concepts, President's Commission on" in addition to "U.S. President's Commission on Budget Concepts."
